Selectmen's Report

The growth and its associated benefits and problems experienced in recent years continued unabated through 1966. The new homes, additions to structures and industrial expansion raised our total valuation to \$12,801,597. However, this increase was not enough to offset our increased appropriations so the tax rate increased from \$6.90 to \$7.20 per hundred. Increasing costs and expanding services will require larger appropriations that will increase the tax burden and we are concerned with the possibility of needing an overall increase in assessments to maintain a favorable tax rate in the future.

Mr. Richard Currier, a graduate engineer and U. S. Army Corps of Engineers veteran of Viet Nam was appointed Public Works Superintendent on March 1st, 1966. It is the opinion of the Board that he has performed his duties well. His Public Works' report summarizes his activities, includes financial statements and presents recommendations concerning his departments.

The consolidation of the Town offices, authorized at the last annual Town meeting, is still under way. New payroll procedures are scheduled to begin on January 1, 1967 and the physical consolidation awaits the necessary remodeling. Plans and specifications for the new District Court and the combined Public Works' and Selectmen's offices have been completed and will soon be out for bid. The Police Station has been moved to the ground floor of the Town Hall building into quarters renovated by Public Works. This gives more room to the Police Department and proposed combination of offices.

We expect increased budget proposals and appropriation requests to properly maintain our physical assets and established services, and greater increases to finance the demands of expanding services and warrant articles asking for funds to accomplish improvements. Therefore, we urge you to attend the annual meeting and help establish the operating budget for the coming year.

The Board has continued the established policy of trying

to administer its affairs in the best interest of the Town. Other Town officials, employees, committee members and citizens have also functioned in this principle and we sincerely thank them for their service and cooperation. They have made a real contribution in maintaining and improving our mutual goal of making Milford a good town.

SALVATORE P. GRASSO, *Chairman*
 CHARLES F. SULLIVAN, JR.
 JOSEPH M. SILVA

Summary of Tax Rate — 1965-1966

	1965	1966
Total Valuations	\$12,304,243.00	\$12,801,597.00
Veterans' Exemptions	457,317.00	469,047.00

Amount to be Raised —		
A. Town Meeting	265,650.81	225,030.10
B. School Meeting	551,787.08	662,899.08

WARRANT

To the Inhabitants of the Town of Milford in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Milford Area Junior Senior School Auditorium in said Milford on Tuesday, the fourteenth day of March, next at two of the clock in the afternoon, to act upon the following subjects:

(POLLS NOT TO CLOSE BEFORE 8:00 P. M.)

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To act upon the reports of all Town Officers, Agents and Committees and raise and appropriate money relative thereto.
4. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of Taxes, if necessary, as provided by the law of 1907.
5. To see what sum of money the Town will vote to raise and appropriate to be used with income, if any, for the election and registration expenses, district court expenses, Public Works administration, town hall and other buildings, town office expense, town officers' salaries, civil defense, fire department, hydrant rental, police department, communications center, garbage collection, health department, sewer maintenance, town dump, vital statistics, highway maintenance, oiling, snow removal, street lighting, town road aid, Wadleigh Memorial Library, old age assistance, town poor, Memorial Day, parks and playgrounds, cemeteries, information booth, damages and legal expense, employees' retirement, employees' social security, insurance, police pension, interest on long term notes, interest on temporary loans, sewer correction, sidewalk construction, long term notes and county taxes.

WARRANT

6. Shall the Provision of Chapter 287 of the Revised Statutes Annotated relative to playing games of Beano be adopted in the Town.

7. Shall the Zoning Ordinance as proposed by the Planning Board be adopted for this Town.

8. To see if the Town will vote to accept the plan for Emerson Park and authorize the Emerson Land Committee to accept funds on behalf of the Town to implement this plan.

9. To see if the Town of Milford will vote to raise and appropriate the sum of six hundred dollars (\$600.00) to replace the tires on the aerial ladder truck. (Board of Firewards)

10. To see if the Town will vote to raise and appropriate the sum of \$2000.00 for two granite posts, with suitable lettering, to be set at the entrance to the Keyes Memorial Field. (Parks and Playgrounds Advisory Committee)

11. To see if the Town will vote to raise and appropriate the sum of \$2000.00 for the purchase of a 9-ton capacity trailer.

12. To see if the Town will vote to raise and appropriate the sum of \$6500.00 for the purpose of replacing the existing stone bridge on Purgatory Road with twin steel pipe arch culverts.

13. To see if the Town will vote to raise and appropriate the sum of \$4878.00 to replace the 1961 Chevrolet 6300 dump truck with a 1967 dump truck.

14. To see if the Town will vote to raise and appropriate the sum of \$4000.00 for the purpose of constructing additional concrete aprons around the Keyes Memorial Pool.

15. To see if the Town will vote to raise and appropriate the sum of \$3300.00 for the purpose of constructing a sidewalk on George Street.

WARRANT

16. To see if the Town will vote to authorize the expenditure of \$5200.00 from the Parking Meter Fund for the purpose of replacing the present parking meters in the vicinity of Union Square and adjacent streets with new meters.

17. To see if the Town will vote to raise and appropriate the sum of \$4630.00 as the Town's share of Town Road Aid — Apportionment B for the year 1965.

18. To see if the Town will vote to authorize the expenditure of \$4630.00 from the Parking Meter Fund for Town Road Aid, Apportionment B, this sum to be equally matched with State funds, for drainage and street improvements on Union Street.

19. To see if the Town will vote to raise and appropriate the sum of \$15,000.00, over the next two year period, \$7500.00 in 1967 and \$7500.00 in 1968, for the purpose of compiling an up-to-date and complete property map of the Town of Milford to be used for taxation purposes.

20. To see if the Town will vote to authorize the Selectmen to file in behalf of the Town an application (in form and manner required by the United States and in conformity with P. L. 560, 83rd Congress) and do whatever else may be required for an advance, in the amount of \$20,000.00, to be made by the United States to the Town of Milford to aid in defraying the cost of preliminary report and plan preparation for sewerage and sewage treatment facilities for the Town of Milford, and, further, to see if the Town will make the necessary arrangements to provide such additional funds as may be required to defray the cost of preparation of the report and plans.

21. To see if the Town will vote to have the moderator appoint a committee of five, one to be the Superintendent of Public Works, to interview engineers and recommend to the Selectmen their selection of the engineer for the preliminary planning of the sewerage and sewage treatment facilities for the Town.

WARRANT

22. To see if the Town will vote to raise and appropriate the sum of \$7000.00 for the purpose of completing the remodeling of the Town Hall offices.

23. To see if the Town will vote to raise and appropriate the sum of \$1200.00 for the purchase of a one man operated radar unit. (By Petition)

24. To see if the Town will vote to raise and appropriate the sum of \$3000.00 for the purpose of having a preliminary investigation and report prepared on the problem of solid waste disposal by incineration for the Milford Region by Rollins, King & McKone, Inc., Consulting Engineers of Manchester, N. H., who have been assisting and advising the Town Dump Committee. This expenditure by the Town would be reduced by any amount of assistance available under existing federal Grants-in-Aid provisions and the study would be completed under the direction of the Town Dump Committee. (Dump Committee.)

25. To see if the Town will authorize the Selectmen to make application for any federal funds available under the Solid Waste Disposal Act — (public law 89-272) or any other pertinent Act., for the implementation of the study and report referred to in Article 1. (Dump Committee)

26. To see if the Town will vote to authorize the Selectmen to file in behalf of the Town an application (in form and manner required by the United States and in conformity with P. L. 560, 83rd Congress) and do whatever else may be required for an advance, in the amount of \$3000.00, to be made by the United States to the Town of Milford to aid in defraying the cost of preliminary report on the problem of solid waste disposal by incineration for the Town Region and, further, to see if the Town will make the necessary arrangements to provide such additional funds as may be required to defray the cost of preparation of the report and plans. (Dump Committee)

27. To see if the Town will vote to raise and appropriate the sum of \$1500.00 to administer the zoning ordinances, if passed, and the existing building and subdivision ordinances.

WARRANT

28. To see if the Town will vote to raise and appropriate the sum of \$1900.00 for the purpose of having a professional electrical engineer survey and prepare construction documents for the electrical wiring in the Town Hall building to make it conform with the requirements of the National Electric Code and the present use of the building.

29. To see if the Town will vote to authorize voting at elections by voting machines in accordance with statutory requirements and to raise and appropriate the sum of \$1250.00 for the rental of six machines for one year.

30. To see if the Town will vote to raise and appropriate the sum of \$1426.08 (six cents per thousand dollars of equalized valuation of the Town) to the Monadnock Region Association of southwestern New Hampshire for issuance and distribution of printed matter, newspaper and magazine advertising, and by other means calling attention to the resources and natural advantages of the Town, in cooperation with the other thirty-seven Towns of the Monadnock Region.

31. To see if the Town will vote to raise and appropriate the sum of \$20,000.00 for the purchase of A B C Realty Company land for the development of a gravel-packed well to augment the water supply.

32. To see if the Town will vote to authorize the selectmen to rent the Town Hall auditorium, stage, and cloak rooms to the Kenmore Stamp Company for a ten year period, with a lease renewable annually, at a rental rate of \$4000.00 per year.

33. To see if the Town will vote to amend the building ordinances to read: All subsurface sewage disposal systems for any new building, or any new installation on any existing building shall comply with the regulations of the New Hampshire Water Pollution Commission as set forth in the latest edition of their publication entitled "The Septic Tank System of Sewage Disposal."

WARRANT

34. To see if the Town will vote to have the moderator appoint a committee of five, one to be the Superintendent of Public Works, for the purpose of studying and evaluating the utilization, condition, future space requirements, locations and other relative aspects of the Town Buildings, and to report their findings to the Board of Selectmen no later than December 1, 1967.

35. To see if the Town will vote to have the moderator appoint a committee of five to bring to the next Town Meeting a recommendation for bringing the Town History up to date.

36. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 27th day of February, in the year of our Lord nineteen hundred and sixty-seven.

S. P. GRASSO,
C. F. SULLIVAN, JR.,
JOSEPH M. SILVA,
Selectmen of Milford

Emerson Land Committee

During the year, the committee has developed plans for improvement of the Emerson land, which lies between the Post Office and the river near the stone bridge.

We hope to make a small, attractive park with a stone retaining wall at the river, a walkway, a focal point with perhaps a mill-stone as its center, and suitable landscaping.

We have asked the selectmen to submit a warrant article to the town meeting giving the committee authority to proceed with the plan. Funds are to come from contributions of individuals, organizations and business firms, with the possibility of volunteer help from anyone interested.

MILDRED HOADLEY, Chairman
CORNELIUS SCHENCK
LOUISE GALE
JOHN ROSSITER
JOHN CALDERARA

Dump Committee

The Dump Committee has met to evaluate the complaints and problems resulting from the present method of rubbish disposal at the North River Road site and to investigate various alternate sites and methods. It is generally agreed that relocation would be desirable as the present site is relatively close to the center of town. However, different methods of handling should be considered so that present conditions would not be repeated. We feel this possibility should be pursued further in committee and potential sites should be explored. Pending more detailed study, we recommend a tighter control and supervision of general dumping practices at our present facility.

Milford is faced with an ever increasing volume of refuse which could out-strip our present capacity in just a few short years if we continue to operate the existing dump as we now do without future planning. The problem is not unique with us but is quite prevalent throughout other areas in the East. Industrial growth in our area due to current expansion will create more commercial rubbish than in the past. In addition, the inevitable population growth will discard greater quantities of general rubbish. The Committee realizes this to be our greatest future problem.

We have sought the advice of a consulting engineering firm specializing in this field to aid Milford in approaching the problem in the proper perspective. Controlled incineration seems to be the best long range method, although admittedly the most expensive. The process basically utilizes a confined dumping area, high temperature combustion, and various design stack devices to filter out contaminants. We feel that additional information from professionals is required, indicating the need for detailed investigation.

The recent increase in the national program to abate and control the excessive pollution of air and streams includes a new financial aid program for solid waste disposal. Preliminary information appears to indicate that Milford might well be

eligible for such a program. No specific contact has been made with our neighboring townships, however, it might be most practical to consider the problem on a regional basis for greatest benefits. The Committee recommends further study be made along these lines to determine the best approach for Milford's future waste disposal methods. It is with this in mind, that we have requested action on three articles in the current Town Warrant so that this professional advice can be obtained at a minimum cost to Milford taxpayers.

The Milford Dump Committee

OUR COVER PICTURE

The subject of our cover picture is the new structure on West street which used to be known as Milford High School, and is now officially the Milford Area School.

A huge new addition was completed during 1966 and occupied last fall. The photo shows some of the interesting panels on a corner of the new multi-purpose room, the canopy over the sidewalk and pupils leaving the building to board a school bus.

The picture was taken by Mrs. Bernice B. Perry.

CENTER OF ACTIVITY at the new Area school in Milford is the modern and efficient school library, shown here in a photograph by Mrs. Bernice Perry. The library provides a core of reading and reference books needed as students are encouraged to explore in depth the subjects studied in class.

Public Works Administration

All administrative and clerical tasks for the five major departments and nine activities that comprise Public Works are handled under this account.

The Public Works office is staffed by the Superintendent, Secretary-Bookkeeper and part-time clerical help. The office continues to be the center of activity and information for a variety of subjects. A continuing and major task is the gathering, compiling and recording of the thousands of pieces of information that are necessary to effectively carry out the functions of the Public Works.

All citizens are encouraged to contact this office and discuss any matters related to Public Works. Our goal is to provide effective and efficient administration to Milford's major governmental department.

Cemeteries

The Cemetery Department of Public Works has responsibility for development and maintenance of Milford's five cemeteries.

Primary effort is directed towards care of the Riverside Cemetery, Milford's major cemetery.

Normal care and maintenance, consisting of mowing, trimming and raking, has been performed this year. Grading and seeding was done on Perpetual Care lots.

Numerous monuments and markers were reset and straightened. Work is carried out with the thought of providing the best appearance possible.

In past years, the Cemetery Department has operated without an appropriation from the Town, being supported by income from the sale of lots, burials and interest from the Perpetual Care Trust Funds. This past year, income, other than Trust Fund Interest was considerably lower than in previous years, resulting in an over-expenditure. It may again be necessary to require an appropriation to cover expenses.

Proposed projects for future years include construction of a tool shed for storage of mowing and maintenance equipment, revision of the cemetery maps, repairs to the receiving tomb and additional water lines and bituminous surfacing of roads.

Building Inspection

1966 was a very active year for building and development in Milford. As with other towns in southern New Hampshire, Milford will continue to experience active housing and industrial growth. Because of this growth, no section of public works responsibility needs revision more than building inspection. Inspection per se is non-existent, the building code offers only general guidelines for fire safety and general welfare. The code contains no provisions for regulating sanitation or construction methods. As the town experiences more development, an obligation is incurred to protect its citizens and property values by establishing proper standards and enforcing these standards through strict, competent inspection.

Highway Maintenance

This function of Public Works encompasses many and varied activities. Any task, not specifically designated in a separate appropriation, must be accomplished under the Highway Maintenance program.

Activities included in Highway Maintenance are: street cleaning, trash removal, patching, maintaining drainage, cleaning brush, street sweeping, mowing roadsides, repairing bridges, maintaining miscellaneous town lands and structures, installing traffic controls and signs, maintaining equipment and vehicles and countless minor tasks.

Routine work was accomplished this year. Emphasis was

placed on correcting deferred maintenance, and bringing programs up to date. The intent has been to improve the general appearance of the town as a whole, while providing better service and availability of streets, roads, sidewalks and public structures.

Greatest need for improvement is found in the areas of drainage, street surfaces, sidewalk surfaces, standardization of traffic signs, street markings and equipment capabilities.

Un-expended Balance		\$ 492 20

Highway Oiling

The highway oiling program resurfaced approximately five miles of in-town streets and several rural roads.

Due to a late start in the oiling program, we were forced to postpone the treatment of several gravel-surfaced roads. Prime emphasis will be placed on treating the remaining gravel roads next year to eliminate their expensive maintenance costs. Extensive repairs will be required on the 10-ton roller before it can be used during the 1967 season.

Serious thought should be given in the near future to supplementing the asphalt-sand mix resurfacing program with a thin-lift bituminous concrete mix resurfacing program, especially as applied to in-town streets. Thin-lift hot-mix competes favorably with oiling in costs and offers better appearance and riding qualities.

Town Road Aid — A Fund

TRA-A funds are utilized for reconstruction of rural town roads. Funds appropriated by the Town are matched by the State on a mileage basis.

Funds available this year will be used to finish reconstruction on Burns Road and to make improvements on West Street.

Appropriation	\$1,008 90
Expenditures	1,008 90

Balance	00

TRA - B

Funds raised by the Town for TRA — B are matched by the State to be used on certain street projects.

This year's project consisted of resurfacing portions of Elm Street. The work included resetting curbing, reconstructing sidewalks and several ramps, replacing catchbasin grates and applying bituminous, leveling and wearing courses. The work was done by the Lane Construction Company under the direction of the New Hampshire Department of Public Works and Highways. Public Works personnel assisted in the reconstruction of sidewalks and ramps.

Appropriation	\$4,630 00
Expenditures	4,630 00

Balance	00

Sewer Maintenance and Correction

A program of sewer maintenance was initiated this year on a scheduled basis. This program was made possible, due to acquisition of the sewer cleaning machine purchased last March. Nearly five miles of main sewer were rodded, flushed and cleaned at substantial savings in labor and time. In addition to the planned maintenance, numerous emergency calls were answered to correct blockages in mains and laterals. The department also handled many stoppages occurring in service lines.

Correction activities consisted primarily of repairing and raising manholes and repairing broken lines.

With less than one-third of the main sewers receiving maintenance last year, an intensification of the program is highly desirable. Presently, the department is receiving and spending less than three cents per foot on sewer maintenance; certainly, no great expenditure to protect a sewer with a replacement value of from eight to ten dollars per foot.

Appropriation		\$ 2,200 00
Expenditures:		
Labor	\$1,883 08	
Materials and Supplies	239 17	
Equipment Rentals	76 01	
Total Expenses	-----	2,198 26

Un-expended		\$ 1 74

Sidewalk Construction

Several projects were accomplished this year under the Sidewalk Appropriation.

In conjunction with the resurfacing of Elm Street, 400 feet of sidewalk was reconstructed to take advantage of the Asphalt overlay available as part of the TRA project.

One hundred feet of curb and sidewalk was rebuilt in front of Garden Street School.

Earmarked funds for the Souhegan Street sidewalk were

used to set 370 feet of curb and construct a 2-inch asphalt sidewalk to help correct drainage problems in this area.

As in past years, the Town did construct several driveway ramps for private exit and entrance to the street. This practice seriously limits the funds available for sidewalk construction.

In coming years, consideration should be given to increasing sidewalk funds with the intent of reconstructing heavily used walks such as near the schools and in the down town area.

Appropriation		\$1,500 00
Expenditures:		
Labor	\$1,586 22	
Materials and Supplies	634 05	
Miscellaneous	200 00	
Total Expenses	-----	2,420 27

Over-expended		\$ 920 27

Garbage Collection

Garbage collection is handled by contract between the Public Works and Donald Holt, Amherst, N. H. In April, 1966, a five-year, \$5000.00 per year contract was signed for collection services. The contracted services include two collections weekly during the summer months and one collection weekly the rest of the year. Collection routes have been expanded to include some of the new residential developments.

Appropriation	\$4,500 00
Expenses:	
Donald Holt	4,125 00

Un-expended Balance	\$ 375 00

Town Dump

The town dump has long been a neglected problem area. Several programs were instituted this year to correct this situation. None of these approaches has completely solved the

problem. A satisfactory solution to disposal of refuse and waste will be expensive. Reasonable programs can be undertaken to create a more efficient and workable disposal operation.

Expenses incurred this year in operating the dump and carrying out the improvement programs led to a considerable over-expenditure. Labor costs were greatly increased, primarily because the custodian was required full time most of the season for fire control. This program resulted in only one call for assistance from the fire department, greatly reduced from previous years. Additional time was spent by public works personnel to clean up, fill, grade and maintain the dump correctly. The tractor-dozer used to push over the dump required expensive repairs. The dump-use permit program was instituted to control the use of the dump by persons outside of Milford.

Other improvements will be initiated during the coming year. Increased cooperation from users of the dump could reduce operation and maintenance costs.

Appropriation		\$1,700 00
Income:		
Dump Permits		65 00
		<hr/>
Total Income Available		\$1,765 00
Expenditures:		
Labor	\$2,181 64

Information Booth

The Information Booth was operated this year from July through September, at its new location on the Oval. Edward Ruonala and the late Rolland Brewster were attendants. The booth receives and distributes brochures, maps, literature, etc.,

from the State Department of Resources and Economic Development, various regional associations and private tourist enterprises without charge. The booth served 2580 cars, totaling 7485 persons, representing 28 states and 3 provinces.

Appropriation	\$ 300 00
Expenses:	
Attendant's Salary	300 00

Balance	00

Parks and Playgrounds

In past years, Parks and Playgrounds has consisted primarily of care and maintenance of Shepard Park, the Oval, Keyes Field and several smaller areas. In 1966, the operation of the Keyes Memorial Pool and recreation program at Keyes Field became the responsibility of Public Works. These programs are directed by a swimming and recreation staff during the summer. Public Works' regular personnel perform maintenance and improvement tasks.

Largest item of maintenance is mowing. The garden tractor with mowers purchased this year, eases the task considerably. Continual day to day care must be accomplished to keep the various playgrounds in best appearance and availability.

Work was performed on the infields of the ball diamond at Keyes Field and Shepard Park. Much remains to be done to put these diamonds in top shape. The multipurpose area was further developed with the addition of basketball and tennis backboards. Additional fencing was installed and a number of shade trees were planted.

Greatest needs for next year are the addition of small children's play equipment and the construction of a concrete deck between the fence and the pool proper. The concrete will eliminate most of the grass and dirt that is carried into the pool and reduce considerably the filter maintenance costs. A custodian for the parks and playgrounds is being sought for the summer season to better accomplish daily maintenance and care.

Milford's parks and playgrounds offer tremendous potential for future use, proper planning and wise use of effort can develop them into a great asset.

Un-expended Balance		\$ 887 90

Town Buildings

The major expense under Town Buildings is the operation and maintenance of the Town Hall. The cost of repairs in the Town Hall increases continually with the age of the building. Numerous repairs to the heating plant are necessary each fall and winter. Of serious concern is the condition of the electrical wiring. The wiring is no longer adequate to carry today's load demand. The cost of rewiring the complete building is prohibitive. Present policy is to rewire office areas as remodeling occurs. Also restrictions have been placed on the use of electrical appliances.

Fortunately, an increase in rental revenue, primarily from the Kenmore Stamp Company's additional office rental, has offset increased costs.

As a first step in the rearrangement of the Public Works office and the District Courtroom, the Milford Police Department was moved to new larger and more efficient quarters in the

front basement of the building. The remainder of the remodeling work was delayed pending re-evaluation of the proposed plans. Plans and specifications have been prepared and it is expected that the work will be accomplished in the spring of 1967.

Maintenance of the other buildings, primarily the garage and sheds of public works has been at a minimum.

Of utmost concern for the next year, is the loss in rental income that will be experienced when Kenmore Stamp Company moves to its own building. The loss will have to be replaced by an increase in the direct appropriation.

Major projects next year include an extensive "Spring House-cleaning" of the Town Hall. Corrective improvements will be made in conjunction with the renovation work, repainting the Selective Service Office, maintenance of the heating system and in other necessary areas. Serious thought must be given soon to elimination of the highly inadequate sheds on Pine Street and their replacement with a suitable storage structure.

Expenses	3719 31
Balance — unexpended	672 69

Snow Removal

The winter season began with exceptionally heavy snow-storms during the months of January and February. Over 80% of snow removal funds were expended during this period. Numerous smaller snow-falls and several major ice storms accounted for the balance and led to an over-expenditure.

Considerable expense is incurred in readying and maintaining snow removal equipment and vehicles for the winter season. The department was hampered by the lack of experienced personnel and the lack of equipment to plow sidewalks and spread salt and sand. Considering all factors, snow removal operations were accomplished in a satisfactory manner.

Needs for the coming seasons include: the improvement of salt storage and handling methods and the acquisition of additional equipment, namely a salt-sand spreader, a suitable side-

walk plow, and an additional plowing unit to cover the parking lots and schools.

			inches 84.7

Traces (less than a tenth of an inch) were recorded on Feb. 5, Feb. 21, April 1 and 2.

The year 1966 thus reverted to the snowy pattern of 1955

to 1964, with well over the 75-year annual average of 70 inches for this area. Yet it was an unusual snow year in other respects too; more than half the year's snow fell in one month (January—one of the snowiest Januarys on record), and looking at it in another way, five-eighths of the year's total, or 51.8 inches, fell in just four storms—January 8-9, January 23-24, January 30-31, and February 25-26. Other than these four storms, there were only two others in the 5-inch-plus class (March 12-13 and December 24-25), and a remarkably small number of minor snowfalls. Thus the snow removal efforts of the year were relatively few, but unusually intense when they did occur; plus the bunching in January, when three major storms hit within as many weeks. In addition, the January 30-31 and December 29 storms were accompanied by rain which converted the snow into an extremely heavy and crusted slush, very difficult to clear away and resulting in unusually hazardous walking and driving conditions.

Respectfully submitted,
ANDREW E. ROTHOVIVS

Water Department

The greatest single responsibility of the Milford Public Works is the distribution of water in sufficient quantity and acceptable quality to its consumers. This task grows increasingly more difficult each year as population and industry grow and create larger demands. Paramount to this growth is a serious need for an additional source of water. Primary source now is the gravel-packed well at Savage Farm. The South Street Pumping Station is used only as a stand-by source. Preliminary investigations for another source have been initiated and it is hoped that they can proceed rapidly.

Several main extensions or relocations were accomplished this year, namely, relocations at the Osgood Road Bridge and Westchester Park; and extensions on Ridgefield Drive, the apartment house on Nashua Street and the industrial park on Powers Street. Several industrial services and fire protection lines were installed. Forty-two new domestic services were installed. In conjunction with the resurfacing project on Elm Street, copper services were laid from the main to the curb, to forestall excavations of the surface from service leaks. The department was plagued with several major water leaks and numerous smaller ones. The Prospect Hill Standpipe was drained and cleaned and the vent screen was replaced. Painting and repairing was postponed pending investigation of the tank by qualified personnel and the work is expected to be done next spring.

A concentrated effort was made to collect outstanding water bills and job work accounts. These efforts were partially successful and will be resumed again in coming months. Consumers are reminded that non-payment of water accounts may result in discontinuance of service.

Proposed plans for next year include an intensifying of maintenance on the distribution system, primarily main gates and valves. In addition, 1967 should bring several more extensions and many new services.

The Milford Water Department invites its consumers to discuss any water problems that may occur. In this way, we can better serve the consumer with improved service and water quality.

Communications Center

To the Honorable Board of Selectmen:

I herewith submit my annual report of the activities of the Milford Communications Center from January 1, 1966 through December 31, 1966.

The following is a list of the members of the Milford Communications Center and the wages they earned during the year 1966:

Joseph Beaudoin	\$ 232 25
June Bernasconi	1,188 00
Lois Densmore	2,510 41
Mary Lou Dorries	194 41
Carol Dutton	5 40
Paul Fessenden	617 25
Guy Franklin, Jr.	72 06
Ruth Fraser	724 75
Victor Fraser	1,003 63
John Gaspar	289 40
John Kiernan	14 00
Harold Lamontagne	1,565 56
Astrid McBain	3,515 63
Sandra Panagoulis	280 81
Alden Piper	24 00
James Plante	25 50
Duane Rockwell	68 25
James Signor	91 02
Lloyd Trempe	562 38
Noella Trombly	1,744 65

	\$16,788 88

In April, 1967, the Communications Center will have been in operation for five years. In 1966 a list of reserve (spare) help was set up to assist in *emergencies only*. These include three from the Fire Department, five specials from the Milford Police Department, that have had previous experience at the CC, one matron, and one previous employee willing to assist in an emer-

gency. We are also fortunate that the CD Auxiliary has an interest and come in for periodic instruction, but if the instruction isn't used it can soon be forgotten.

The State Police radio was replaced in 1966, and, during a fire emergency in the spring of 1966, a dictaphone recorder was purchased at the request of the Milford Fire Department and approved by the Selectmen. This has been a valuable piece of equipment as it has instant replay and if any complaints come to the Center, as has happened, the tapes can be played back and the dispatcher absolved of any negligence. In case of a false alarm the tapes can be replayed and the fire department can ascertain that the call was a false alarm and this also absolves the CC dispatcher.

The following is a list of the activities of the Milford Communications Center for the Milford Police Department during 1966:

Dispatching police cruiser on calls	1910
Assistance to cruiser	1535
Dispatch police to accidents	130
Aid and assistance to other departments	748
Complaints taken by CC and relayed to police	189
Telephone calls received	10,137
Emergency calls dispatched for emergency service	11
Information service rendered by CC	1681
All outgoing calls pertaining to Milford only	9968
Resuscitator	5
Bike plates	142
Dump permits (during weekends)	307

The following is a list of activities of the Milford Communications Center for the Milford Fire Department during 1966:

Incoming calls received by telephone for fire department	610
Aid to fire department (all outgoing calls)	891
Informative calls taken for fire department	87
Radio calls taken for fire department	517
Fire permits issued	736

The following is the number and type of fire alarm rung from the CC upon the receipt of a call calling for the dispatch of fire equipment:

Dwelling	28
Business	17
Brush	13
Car or truck	6
Box alarm	12
Mutual aid	15

The following is a list of the type of calls and the number which the CC handled for the Town of Amherst, N. H., during 1966:

Dispatching police or fire departments on calls	2139
Telephone calls received pertaining to Amherst	1074
Dispatch of police to accidents	50
Calls of complaints relayed to police	55
All outgoing calls pertaining to Amherst	1076
Emergency calls dispatched for emergency service	4
Information service rendered by CC	181
Assistance to police and fire department	218

The following is the number and type of fire alarm rung from the CC for the Town of Amherst, upon receipt of a call calling for dispatch of fire equipment:

Dwelling	16
Brush	13
Car or truck	5
Mutual aid	13

The following is a list of the type of calls and the number of them which the CC handled for the Town of Mont Vernon, N. H., during 1966:

All incoming telephone calls pertaining to Mont Vernon	171
All outgoing telephone calls	145
Dispatch police to accidents	5

The following is the number and type of fire alarm rung from the C C for the Town of Mont Vernon, upon receipt of a call calling for the dispatch of fire equipment:

Dwelling	5
Brush	1
Car fire	1
Mutual aid	7

Our thanks go to the officials and the citizens of the towns for their cooperation with the Milford Communications Center. Below is our financial report for 1966:

Expenditures:

Salaries	\$14,729 36

Fire Loss \$99,038.70

Covered by Insurance \$89,961.60

Ladders 926 feet approximately

2½ inch Hose Laid 43,650 feet

1½ inch Hose Laid 7,950 feet

This does not include number of feet of hose laid out at town dump.

Apparatus:

Engine No. 1 – 1949 American LaFrance 500 G.P.M. Pumper

Engine No. 2 – 1953 American LaFrance 500 G.P.M. Pumper

Engine No. 3 – 1963 International Tank Truck (800 gals.)
w/750 G.P.M. Pump

Ladder No. 1 – 1957 American LaFrance 65 ft. Aerial Ladder

Manual Force:

The Fire Department is headed by three Firewards who command a force of 44 men.

Training:

Training drills are held every monthly meeting night for all personnel. In winter, drills consist of blackboard problems lectures and training films. With the thousands of new products on the markets today the fire extinguishing techniques are constantly being changed and improved.

With the extreme dry conditions we have experienced in the past few years we have been very fortunate to have had only minor outbreaks. This we believe is mainly due to restricting of fire permits to certain daily hours and also 100 per cent co-operation from local citizens.

The problem of our present station has been previously mentioned. Room is needed for future expansion and the station doors need to be widened. Any replacement of equipment would present a major problem as equipment measurements have increased and present available space is limited.

The parking problem on Middle Street must be given some serious thought.

The Town of Milford has grown and still continues to do so. Fire potentials also are increased, and the Fire Department must grow also to cope with the surrounding conditions.

During this past year cooperation of local and state police, C.D. Director, Public Works and Public Service Company has been greatly appreciated. The Communications Center has as before proven to be a very valuable asset to the town and to the Fire Department.

As in the past, we are grateful for any and all courtesies rendered our department by all town departments and local citizens.

ROLAND F. SPRAGUE,
ARTHUR L. DUTTON,
DOMINIC A. CALVETTI,
Board of Firewards

Fire Warden's Report

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent

years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966.)

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.

2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us: (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A. M. and 5:00 P. M., except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.

2. Be sure all discarded smoking material is out.

3. Don't leave a live camp or cooking fire.

4. Most important — instruct your children that matches are not play things.

TRULY — ONLY YOU CAN PREVENT FOREST FIRES

ROLAND F. SPRAGUE, *Forest Fire Warden*
WINTHROP H. HANNAFORD, *District Fire Chief*

Police Department

To the Honorable Board of Selectmen:

I herewith submit my 10th annual report of the activities of the Milford Police Department from January 1, 1966 through December 31, 1966.

The following is a list of the members of the Police Department and the wages they earned during 1966:

Duane B. Rockwell, Chief of Police	\$7,012 42
Harold Rand, Patrolman	4,669 89
Ervil G. Little, Patrolman	1,903 59
William R. Banks, Patrolman	99 16
Guy W. Franklin, Jr., Sergeant (Former)	2,968 09
John S. Gaspar, Patrolman (Former)	2,547 24
Kenneth Quast, Patrolman (Former)	1,735 35
Amelia Calvetti, Traffic Aide	806 80
Maxine Erikson, Traffic Aide	1,009 75
Madeline Lynch, Traffic Aide	963 80
Carol Dutton, Matron	32 25
Joseph Beaudoin, Special Officer	200 90
Angelo Bernasconi, Special Officer	32 85
Donald C. Everett, Special Officer	209 85
Raymond Faneuf, Special Officer	215 85
Victor Fraser, Special Officer	318 20
Allan Hasu, Special Officer	416 00
Kenneth Hills, Special Officer (Former)	15 00
Perley Jones, Special Officer	106 85
John A. Kiernan, Special Officer	201 02
Charles Lundberg, Special Officer	36 30
Phillip Saytanides, Special Officer	397 77

James Signor, Special Officer	507 65
Raymond Wright, Special Officer	373 36

The offices of the police department have now been moved to the ground floor of the Town Hall. A counter was installed in the reception area just inside the door. There is a small office for the Chief of Police, a small fingerprint and booking room, a main office where all of the reports and filing work takes place, a detention room and the existing lock-up. There are two closets where police equipment is stored and the police armory. The facilities are not yet complete and we are hoping that some further improvements will be made during 1967.

During the past year the police department faced two serious problems. One was that of an arsonist at work and the other was losing trained and experienced personnel. Both have been expensive. The threat of arson has been reduced. Every citizen should strive to have police officers of the highest caliber. These men are representatives of our community. These are the men that guide our children, protect our lives and property, given the power of arrest but expected to use common sense and good reasoning in the enforcement of the law. These men must be dedicated and willing to give the majority of their time to their work. Today's police officer is expected to be a Lawyer, a Doctor, a Psychologist, a Public Accountant, a Marriage Counselor, a Photographer, a Child Guidance Counselor, a Public Speaker, etc. Men who are able to fulfill the responsibility of becoming a police officer should be paid a salary within which they and their families can live as the average family lives. Most men like the work but cannot afford to stay with the job. During the past year the following officers submitted their resignations: Guy W. Franklin, Jr., John S. Gaspar and Kenneth Quast.

During most of 1966 training programs were conducted at least one night a week. Regular Officers, Special Officers and Auxiliary Officers attended. Many of our classes attracted members of police departments from surrounding communities. Training was given in First Aid, use of the resuscitator, search for lost persons, laws of arrest, firearms training, accident investigation, public relations, self defense tactics and motor

vehicle laws. We feel that this training program has been successful and plan to continue it throughout 1967. Several Regular and Special Officers have attended various seminars at St. Anselm's College in Goffstown.

During April 1966, E. George Little was appointed as a full time police officer. During July 1966, Kenneth Quast was also appointed as a full time police officer but found it necessary to resign this position in December. William R. Banks was appointed in December to replace Kenneth Quast. Both officers are performing their duties satisfactorily.

The local chapter of the American Red Cross purchased another Resuscitator and presented it to the police department. It is carried in the police cruiser at all times. We were called upon six times during the past year to use it. It is a valuable piece of equipment and our thanks goes to the Red Cross for the presentation.

MOTOR VEHICLE INFORMATION

Auto accidents reported with over \$50 damage resulting	231
Persons injured in auto accidents	62
Persons killed in auto accidents	1

During 1966 the police department warned 520 motorists for driving infractions and issued 139 written warnings to motorists to make immediate repairs to the vehicles they were operating because they were unsafe to have on our highways. Seven letters were written to the Division of Motor Vehicles recommending suspension of licenses. 1563 tickets were issued for violations of the Parking Meter Ordinances. 46 tickets were issued for parking violations other than Parking Meters.

The following is a list of motor vehicle violations which were brought before the Milford District Court by the police department during 1966 with a comparison of the previous two years.

	1964	1965	1966
Allowing an unlicensed person to operate			
a motor vehicle	1	6	4
Disobeying a police officer	0	1	1
Displaying false identification	0	0	1

Failure to chock wheels of a parked propane gas truck	0	0	1
Failure to keep to the right	1	2	4
Failure to obtain a permit to operate a junk yard	0	0	6
Failure to report an accident	1	0	1
Carrier of flammable liquid failing to stop at railroad crossing	0	0	1
Failure to yield right of way for an emergency vehicle	0	0	1
Failure to yield right of way	0	0	1
Leaving the scene of an accident	4	7	3
Misuse of registration plates	1	0	1
Operating after license had been suspended	5	9	5
Operating after license had been revoked for failure to show proof of financial responsibility	5	9	5
Operating a motor vehicle with unsafe tires	0	0	9
Operating a motor vehicle with a defective muffler	0	1	2
Operating a motor vehicle without driver's license on person	0	0	1
Operating a motor vehicle without registration in vehicle	0	0	1
Operating uninspected motor vehicle	8	11	2

JUVENILE ACTIVITIES

In New Hampshire, persons who have not attained their seventeenth birthday are defined as "Juvenile." The law requires that juveniles charged with a crime must be treated differently from adults, except in cases involving the violation of a motor vehicle law or aeronautics law. The police department has gone to extremes to guide and counsel juveniles who have violated the laws of society and tried to avoid bringing the offenders before the Juvenile Court. Although the cases of investigations and the cases brought before the Juvenile Court have not increased, it does not mean that there is not reason for concern. We should all be concerned over the "resentment of authority" and the urge for a "kick" whether it be from intoxicants or dope. The attitude and urge can be reduced with a united effort of the parent and law enforcement.

The following is a list of other police department activities during 1966 with a comparison of the two previous years.

	1964	1965	1966
Aid at fires	60	59	58

CIVIL DEFENSE AUXILIARY POLICE UNIT

During April of 1966 this unit was activated. The unit consists of a group of interested citizens who are interested in the Police Department and willing to give of their time when needed by the Police Department. We have found them to be a dedicated group, always willing to help and take pride in their work. During 1966 they turned in a total of 1,762½ hours, consisting of attending their own regular meetings, assisting the police department when needed, responding to fire scenes to

assist with traffic, and other miscellaneous activities. They have attended all of the police training classes.

In conclusion, I would like to thank all branches of Town Government and the citizens of Milford for the cooperation extended to this department. I have enjoyed an excellent working relationship with the Board of Selectmen and they have been most understanding of our problems throughout this past year.

DUANE B. ROCKWELL, Chief of Police

Civil Defense

Your Civil Defense has been active again this year. Courses in Medical Self-Help and Radiology as well as Personal Survival were given this year in Milford. Only a few took these courses and this was a disappointment to paid instructors from your State Civil Defense agency.

From April to December, the Auxiliary Police worked 1763 hours with the police department. This unit is a credit to Civil Defense.

Every year I stress the need for fallout shelters. The Post Office building is our first public shelter in town. It will be stocked by the federal government at no charge to Milford. Shelters must be developed so that the population of Milford can get the protection if needed. The home survey program will be taken by the Bureau of Census. Studies show that most home basements offer a significant amount of fallout protection. The Home Fallout Protection survey program was developed to locate and evaluate this protection and make the information available to householders. When the form is received, fill in the information, and return it to the Census Bureau.

Why are we stressing this protection? Other countries are making civil defense training compulsory. Every adult must complete 19 hours of civil defense training in two months. This year they will complete 60 hours of training.

Again, I wish to thank everyone connected with Civil Defense for their support.

FRED R. LUONGO,
Civil Defense Director

FLORENCE M. SWEENEY, *Clerk*

WADLEIGH MEMORIAL LIBRARY

Report of Librarian — 1966

In a recent library publication, someone referred to reports as "Statistical Wasteland." It is hoped that the following reviewing of the events of your library during 1966 will not be received in this light. May it, instead, encourage you to set out on a year of discovery in 1967 — a year as exciting as a treasure hunt.

During a year when we have been hearing of losses in library circulation across the country, we are happy to say that your library has increased its circulation nearly 1,000 over the figures of 1965.

In the year of 1966 1,050 books were added to the active collection and 33 of these were gifts from the following: Mrs. M. E. Langdell, Mr. Robert Carlson, Mrs. E. H. Carey, The Josiah Crosby Chapter of the D. A. R., The Congregational Church School and Staff, The Milford Garden Club, Mrs. Armstrong Hunter, Mrs. Barbara Wilson, Mr. Edward Romney, Mr. James Cleveland, Dr. Oscar Burns, Dr. J. E. Jones, and the Estate of Miss Katherine W. Kakas.

Other gifts to the library consisted of recordings received from Columbia Record Corporation, Mr. Samuel Taylor, Souhegan Men's Chorus and the Village Singers; paperbacks, magazines and exhibit materials from a number of interested patrons. All these gifts were much appreciated.

The year has been a busy one in which the staff tried to keep pace with the usual activities while adding new ones.

Services to Adults

The Rebekah Lodge continues to deliver collections of books, selected by the library staff, to five Homes in Milford. This service to the shut-ins of Milford has been a part of the library program for 10 years and the story of this project was made into a motion picture this past year.

National Library Week was again observed with some

special events for nearly every day of the week. One evening was devoted to a showing of the Canadian Travel Films and three days were set aside for a book sale. All during the week there were exhibits of interest to all ages.

During the month of June there was an exhibit of paintings and pottery done by the members of the Keyes Art Classes under the supervision of Mr. William Childs.

Each year the staff does more and more to assist adults with individual needs as well as selecting books from phone requests.

There are increasingly more people who make requests for special materials which the staff orders from the State Library.

The record collection was expanded by library purchase and gifts amounting to 48 new titles in 1966.

The Canadian Travel Films are still available for loan to all interested in good entertainment material.

The library experimented in a new field this past year. A few titles of books in large type were added to assist readers with sight difficulties. These have been received with great enthusiasm which proves that more of such books are needed.

Services to Children and Schools

The schools receive classroom collections of books which are selected by the staff. Once a month during the winter the library conducts film programs for the Elementary children which have become popular. A Reading Club was conducted again in 1966 during six weeks of the summer. This program was a very successful one with more children reading than usual. The Club ended with a party and lunch at the library when 86 children were present.

Book Week, as usual, was a worthwhile event when all Elementary children visited the library for reviews of the new books on display, recordings of children's stories and many interesting exhibits for all ages.

The children of the kindergartens of Milford were entertained with story-hours at the library several times during the year. A special story-hour was conducted for the children of the Head Start program in August.

Library and Staff Events

The librarian has attended a number of the book and council meetings relating to the Statewide Library Development Program. This library has been host library for some of these meetings.

Miss Ames and Mrs. Richardson attended the N. H. Library Association meeting in New London in May and the 85th Conference of the American Library Association in New York last July.

The librarian spoke on the subject of Summer Reading Clubs at the Southeast District book meeting held in Mont Vernon.

I wish to express grateful appreciation to my staff, Trustees, Book Selection Committee, Mrs. Hagar and other friends for their help and cooperation during the past year.

Respectfully,
ALICE E. AMES, *Librarian*

Library Trustees

During the year of 1966, through the Emerson Fund, we were able to install a fine new magazine rack for the Reading Room. The unusually colorful display of flowers, in front of the library was made possible by the Tarbell Fund.

Those serving on the book selection committee in 1966 were Mrs. William Shuman, Mrs. Frank Plante, Mrs. Robert Potter, Mrs. David Deans, Mr. Harry Turner, Mr. Carl Wheeler, Mr. William Ferguson, Mr. Ernest Sawtelle, chairman; and Miss Alice E. Ames, librarian.

The board of trustees wish to congratulate the book selection committee for the excellent job they performed.

The trustees elected in March 1966 were Mr. Harry Turner and Mr. Robert Kendall. Other members of the board are Mrs. David Deans, Mrs. Robert Raymond, Mrs. Robert Holcombe and Earle M. MacLeod.

I wish to thank the trustees for honoring me by electing me to the office of chairman for 1966.

The trustees wish to thank the librarians, Miss Ames, Mrs. Richardson and Mrs. Amadio and the part-time assistants, Mrs. Carpenter and Mrs. D'Amato for their cooperation and valuable assistance.

EARLE M. MacLEOD, *Chairman*

Town Auditors

We certify that we have examined the items, accounts and vouchers of the following departments for the fiscal year ending December 31, 1966, and, to the best of our knowledge and belief, they are correct: Town Treasurer, Town Clerk, Tax Collector, Public Works, Clerk of Board of Selectmen, Treasurer — Milford Free Library, Clerk of District Court, Overseer of Public Welfare, Treasurer — Trustees of Trust Funds.

Fire insurance policies on town property were examined and found to be in force.

Surety bonds on the several Town Officers were examined and found to be in force.

The securities in the custody of the Trustees of Trust Funds were examined and found to be in proper order.

Milford Planning Board

At a special Town Meeting held on May 24, 1965, by vote of the meeting, the Planning Board was instructed to prepare a Zoning Ordinance for Milford to be presented at the annual Town Meeting in 1967. The Planning Board has spent many hours in an attempt to present a comprehensive, yet easily understandable Zoning Ordinance, and hopes that the ordinance as presented will be accepted by the Town. Public hearings held on this Ordinance have indicated a growing awareness of the need for a protective ordinance for Milford, with most of the comments being concerned with specific situations and not the principle of Zoning itself.

During the year the Planning Board has held 15 regular meetings and two special meetings with the Selectmen to discuss specific problems. Five Subdivision Plans were submitted to the Planning Board for approval. Three of these plans were accepted and two were rejected. The rejections were, in one case due to substandard lot size and in the other case the Board felt that the method of sewerage disposal was inadequate.

In June the Board held an open meeting for all building tradesmen in Milford to discuss the revision and enforcement of the Building Ordinances. Study committees for electrical, plumbing and construction were formed to study and report on the needs of revision and enforcement, and these recommendations will be considered in revising the Ordinance. It is generally recognized that improved follow-up and inspection of both old and new construction is needed to prevent objectionable conditions from occurring. It would seem that an appropriation by the Town will be necessary that this may be done properly.

Several members of the Planning Board have attended a series of meetings in Concord sponsored by the Department of Resource and Economic Development to broaden their knowledge of Town Planning.

The need for permanent quarters for the Planning Board becomes more acute each year and much of the valuable material developed by the Comprehensive Study of the Town,

including many useful maps, lies buried in the Public Works files for lack of adequate space where they may be displayed for use and inspection by the public and Planning Board.

We express our appreciation to the Trustees of the Wadleigh Memorial Library for the use of the Library as a meeting place for the Planning Board during the year.

We welcome the increased growth that is developing in Milford, but this growth must be controlled if Milford is to remain the kind of town we want to live in.

Report — Dam Committee

On July 8, 1965 Armstrong Hunter, town moderator, appointed the following Dam Committee as authorized by the March 9, 1965 Town Meeting:

James P. Markham, *Chairman*

Harold R. Adams

John E. Rossiter

Coopted: William Ferguson

David Horn

With the cooperation of the N. H. Water Resources Board, and Soil Conservation Service, Milford Planning Board and Milford Textile Corp., the committee was able to present tentative rebuilding plans at the annual Town Meeting on March 8, 1966. Several questions remained unanswered and it was voted to put off action on this article until the Recess Meeting of June 14, 1966.

At the Recess Meeting in June it was voted to re-build the dam by the stone bridge to a height of 7 feet. According to

representatives from the Water Resources Board, and the Soil Conservation Service it was desirable to limit the height of the dam to 7 feet in order not to interfere with the water shed control system which is built further up the Souhegan River valley. At the Recess Meeting the Town appropriated the sum of \$20,000 for this project.

The contract for re-building the concrete dam and stop log area was awarded to William J. Kelly Construction of Lowell, Massachusetts. To date the dam is about 85% complete. There is also some work to be done in the penstock area adjacent to the textile mill. A partial payment of \$7,870.50 has been made to the contractor.

The appropriation of \$20,000.00 will be sufficient to complete the project and some monies will be returned to the general fund.

The committee wishes to thank all the people who helped with this project especially Vern Knowlton of the Water Resources Board, Sal Grasso for his engineering help and Sam Goldman for allowing the construction of the dam.

J. P. Markham, Chairman
Dam Committee

Parks & Playgrounds

Parks and Playgrounds traditionally go together, but they are not the same thing. It is well to bear in mind that a large part of our budget is used to maintain existing parks, fertilize trees, mow grass, and maintain the pool while only a very small amount goes to what we like to think of as our important job, that of encouraging recreation programs for the citizens of Milford. As a practical matter, our work is divided into three divisions, routine maintenance of existing facilities, the swimming pool, and the encouragement of recreation.

Consideration should also be given to improvement of our parks and playgrounds. We would suggest making a small park of the town owned land between Osgood pond and the road; cleaning up the area known as the Switch for a picnic area;

making an area around the stop sign by the bridge so that flowers could be planted there; and establishing a regular and continuing plan for planting trees in Milford.

The pool program at Keyes Field provided swimming instruction for approximately 400 children, Junior and Senior Life Saving, a swimming team, adult swimming lessons and general swim every day for an average of 200.

The baseball diamond was used every day by Babe Ruth, Town, or American Legion teams.

Programs other than swimming during the summer included archery, nature crafts, arts and crafts, softball and tennis on an organized basis and good use of the facilities by individuals. Special programs included a pet show and the closed state swim meet sponsored by the Rotary Club.

A skating program under the direction of Miss Karen Lane provided instruction for a large group of children in spite of the difficulty of maintaining ice. A number of them completed requirements for the first two ribbon awards.

Progress is being made in the recreational program in Milford but we are a long way from what many New Hampshire towns, much smaller than Milford, are doing.

More people are discovering that Keyes Field is a good place for group activities throughout the year. The Senior Girl Scouts now have an annual Burning of the Greens on Twelfth Night; the American Legion has used the area for their outing; the Girl Scout Winter Play Day at the skating rink provided outdoor fun for well over a hundred girls; and the picnic tables are getting more use.

With the increased use of Keyes Field, it is high time that the town provide appropriate posts or gates at the entrance of the field. We recommend that some action be taken on this.

Report on Your Monadnock Region Association

TO THE TOWN OF MILFORD

The stated aims of your Monadnock Region Association, now in its 34th year of existence, are as follows: To help the Monadnock Region remain beautiful, to promote worthwhile organizations, to increase the prosperity of its inhabitants, to encourage the development of parks and recreation facilities, and to be of service to all who live, work or visit here.

During the past year your Association has sponsored 4-H activities, Boy Scouts, Boys' State, forestry betterment, Philharmonic Concerts and ham radio groups. We have given slide lectures, talks on Parliamentary procedure, and duties of Town Officers. In cooperation with the National Society we sponsored the First Covered Bridge Festival to be held in New England. We have attended public hearings whenever the interests of the Region or any Town were at stake.

We continue to work for roadside beautification, conservation of resources, and protection of wildlife. We publicize historic sites, points of interest and natural attractions. In various ways we have contributed to the development of the Region along cultural and educational lines to the end that such advantages are apparent and a factor in inducing desirable and valuable people to locate in the Monadnock Region.

Your Region Association will tackle any problem advancing the livability of the area of the Monadnocks for natives, visitors or new residents.

Zoning Ordinance Town of Milford, New Hampshire

ARTICLE I

Purpose

101 Pursuant to authority conferred by Chapter 31:60-89, New Hampshire Revised Statutes Annotated, 1955, and for the purpose of promoting health, safety, morals, and the general welfare of the community, as well as efficiency and economy in the process of development, now, therefore, the following ordinance is hereby enacted by the voters of the Town of Milford, New Hampshire, in official Town Meeting convened.

ARTICLE II

Districts

201 For the purpose of this ordinance the Town of Milford is divided into the following districts as shown on the Official Zoning Map, declared part of this ordinance, filed with the Town Clerk and dated February 27, 1967.

- (1) Residential District A
- (2) Residential District B
- (3) Rural Residential-Agricultural District
- (4) Commercial District
- (5) Industrial District

ARTICLE III

General Provisions

301 Nothing in this ordinance shall be construed to prevent the continuance of any existing use of land or buildings.

302 No motor vehicle and machinery junk yard or place for storage of discarded machinery, vehicles, or other scrap materials shall be maintained in any district except as herein provided or as otherwise provided by any other ordinances of the Town of Milford and the laws of the State of New Hampshire.

303 Sanitary Protection.

303-1 No cesspool, septic tank, or sewage disposal area shall be constructed or maintained less than seventy-five (75) feet from the edge of a public water body; from a well; or from a dwelling other than that to which it is appurtenant.

303-2 No waste waters or sewage shall be permitted to run free into a public water body or be discharged in any way that may be offensive or detrimental to the health of others. All such waste shall be conveyed away underground through use of an accepted sanitary system or in such a way that it will not be offensive or detrimental to health.

303-3 All dwellings and sanitary systems shall be constructed and maintained in accordance with standards set and enforced by the N. H. State Department of Health, the N. H. Water Pollution Commission, or as may otherwise be provided by any ordinances of the Town of Milford.

304 All dwellings, regardless of type, construction or otherwise, shall be on lots no less than the minimum size required for the district in which they are located.

305 Residences may be used to house uses by the owner or tenant including: offices for a doctor, engineer, architect, real estate and insurance or other recognized profession. Veterinarians shall be permitted in the Rural Residential-Agricultural District only. Such home occupations as hairdressing, dress-making, manufacture of craft products for sale or manufacture of food products is permitted.

306 The removal of any natural resources is permitted, either for private use or for sale, provided that all excavating, handling, processing, and storage facilities shall be removed and the area shall be regraded where practical or otherwise protected to assure the premises are left in a safe and sightly condition and protected against erosion.

307 No owner or occupant of land shall permit fire or other ruins to be left, but within one year shall remove or refill the same to ground level or shall repair, rebuild or replace the structure.

308 All dwellings shall contain a minimum of four hundred (400) square feet of floor area, be on frost free foundations, and have an approved sewage disposal system and running water system where such public utilities are not available.

309 If any proposed use in any district is such as to attract vehicles, ample spaces shall be provided on the property to accommodate such vehicles attracted by the proposed use.

ARTICLE IV

Residential District A

401 The following regulations with respect to building and land usage shall apply.

402 Only single family and two family residential buildings and accessory structures shall be erected or occupied within the district.

403 Minimum lot area for any single dwelling unit shall be 10,000 square feet and for any two family dwelling unit shall be 15,000 square feet where public water and public sewer connections are available at the time of construction. On lots where public water is available but private sewage disposal is provided

at the time of construction, the minimum area for a single family dwelling unit shall be 20,000 square feet and 30,000 square feet for a two family dwelling unit.

404 No more than 40% of any lot shall be occupied by residential buildings.

405 No dwelling unit shall be erected on any lot having less than 100 feet frontage on a public road, proposed road or right-of-way.

406 The use and occupancy of trailers — home trailers or mobile homes — as dwelling units shall be prohibited within the district.

407 A single family residence may be erected on a lot measuring less than minimum requirements set forth in this ordinance provided such lot was of record at the time this ordinance is enacted.

408 Exceptions. None.

ARTICLE V

Residential District B

501 The following regulations with respect to building and land usage shall apply.

502 Only single family or multi-family residential buildings and accessory structures shall be erected or occupied within this district.

503 If a dwelling is to be occupied by more than one family, the lot size shall be increased for each family unit over one as follows:

503-1 Where public water and sewerage is available at the time of construction a single family unit shall have a minimum lot size of 10,000 square feet. Each additional dwelling unit within the same structure on the same lot shall require an additional 5,000 square feet of lot area.

503-2 Whether public or private water is supplied but only private sewage disposal is available at the time of construction a single family dwelling unit shall have a minimum lot size of 20,000 square feet. Each additional dwelling unit within the same structure on the same lot shall require an additional 10,000 square feet of lot area.

504 All other regulations with respect to building and land usage that are required in Residential District A shall also be required in Residential District B: namely, paragraphs 404, 405, 406 and 407.

505 Any of the following uses when granted as an Exception by the Board of Adjustment.

505-1 Rooming house or tourist home.

- 505-2 Club, lodge or philanthropic institution.
- 505-3 Public utilities structure.
- 505-4 Church, hospital, school, sanitarium or cemetery.

ARTICLE VI

Rural Residential-Agricultural District

601 The following regulations with respect to building and land usage shall apply.

602 Only single family and two family residential buildings, buildings necessary for farming, and accessory structures shall be erected or occupied within this district.

603 Minimum lot area for any single family dwelling unit shall be 40,000 square feet and for any two family dwelling unit shall be 60,000 square feet.

604 No dwelling unit shall be erected on any lot having less than 200 feet frontage on an accepted town road, proposed road, or right-of-way.

605 No more than 40% of any lot shall be occupied by buildings.

606 Land use shall be permitted for general farming, including dairying, livestock and poultry raising, horticulture, truck gardening and other agricultural enterprises or uses, or the raising of animals for other purposes including the sale of produce raised on or by the owner or tenant of the premises.

607 Home produce, products and crafts may be bought and sold and exposed for sale.

608 Any privately owned business within or accessory to a residential dwelling employing not more than three (3) persons may be maintained provided the premises retain a residential-agricultural atmosphere.

609 Any of the following uses when granted as an Exception by the Board of Adjustment.

609-1 Business or industry under the same provisions as apply in the Commercial or Industrial Districts.

610 "A single family residence may be erected on any lot having less than minimum requirements set forth in this ordinance provided such lot was of record at the time this ordinance is enacted."

ARTICLE VII

Commercial District

701 The following regulations with respect to building and land usage shall apply.

702 Any use permitted in the Residential Districts (A or B) under the same provisions as apply to residences in those districts.

703 Lodging houses, hotels, motels, tourist homes, courts or cabins, including such retail businesses within these permitted buildings as are conducted for the convenience of the residents or guests.

704 Other retail businesses dealing directly with the consumer, including: shops, restaurants, garages, parking lots, gasoline stations, theatres, halls, clubs, business offices, banks, and undertaking establishments.

ARTICLE VIII

Industrial District

801 The following regulations with respect to building and land usage shall apply.

802 Any use permitted in the Residential Districts (A or B) under the same provisions as apply to residences in those districts.

803 Retail businesses that may be pertinent to the industrial businesses of the area, including: restaurants, garages, parking lots, gasoline stations, business offices and banks, storage or warehouses and trucking terminals.

804 Manufacturing, employing unobjectionable motive power, or utilizing hand labor or quiet machinery and processes, and not detrimental to the neighborhood.

ARTICLE IX

Non-Conforming Uses

901 **Continuation of non-conforming uses:** Any lawful building or premises or part thereof existing at the time this ordinance or any amendment thereto is adopted may be continued although such building or use does not conform to the provisions thereof and such building or use may on approval of the Board of Adjustment be extended throughout such premises.

902 **Change of non-conforming uses:** The Board of Adjustment may permit any non-conforming use to be changed to any specified use not more detrimental or objectionable to a neighborhood.

ARTICLE X

Board of Adjustment

1001 Within thirty days after the adoption of this ordinance and thereafter as terms expire or vacancies occur, the Board of Selectmen shall make appointments to a Board of Adjustment of five members conforming in duties to the provisions of Chapter 31, New Hampshire Revised Statutes Annotated, 1955,

Section 72. Thereafter, as terms expire or vacancies occur, the Board of Selectmen shall be responsible for filling vacancies and maintain full membership on the Board of Adjustment. The Board of Adjustment here provided shall conform in membership and terms of office to the provisions of Section 67, Chapter 31, New Hampshire Revised Statutes Annotated, 1955.

ARTICLE XI

Exceptions

1101 **Exceptions.** An exception is a use that would not be allowed generally or without restriction throughout a particular zone but which, if controlled as to number, area, location or relation to the neighborhood would promote the public health, safety, morals, or the general welfare of the community, as well as efficiency and economy in the process of development. Such uses may be permitted in a particular zone as exception only if specified provision for such exception is made in this ordinance.

1102 **Procedure for approving an exception.** A request for an exception shall be acted on by the Board of Adjustment in the following manner:

1102-1 Caused to be published in a newspaper of general circulation in the Town of Milford for two consecutive weeks the substance of the requested exception.

1102-2 Hold a public hearing if requested by petition signed by at least ten qualified voters of the town. Such petition shall be submitted to the Board of Adjustment within fourteen (14) days following the first publication of the notice of the requested exception. The Board of Adjustment shall hold said public hearing prior to taking action on the requested exception.

1102-3 A referral of the request for an exception shall be made to the Planning Board for its recommendations as to whether the exception meets the conditions for approval as specified within the Zoning Ordinance.

a) Upon receiving the recommendation of the Planning Board, the Board of Adjustment may accept the recommendation or override it with a majority vote of the members.

1103 The following findings of fact shall be made by the Town Planning Board and the Board of Adjustment before an exception can be approved.

1103-1 That the use is mentioned in this ordinance, or an amendment thereto, as an exception within the specified zone.

1103-2 That unsafe or hazardous conditions will not be

created by this proposal relative to traffic, fire, explosion, nor be injurious or detrimental to the neighborhood by reason of dust, odor, fumes, wastes, noise, vibration or other noxious or objectionable features either as to location or through operation of the proposed use.

1103-3 That adequate off-street parking will be provided for freight and delivery trucks, and employee and customer parking.

1103-4 That the proposed exception is complementary to neighborhood development and will not adversely affect the existing development within the area.

1103-5 That site conditions, such as landscaping, parking areas, loading or shipping docks, storage areas, etc., are visually compatible with the existing neighborhood.

1104 After allowing a reasonable time for all parties to be heard the Board of Adjustment shall render its decision based on all its findings.

ARTICLE XII

Variances

1201 A variance is a relocation of the terms of the ordinance where such variance will not be contrary to the public interest and where, owing to conditions peculiar to the property and not the result of the actions of the applicant, a literal enforcement of the ordinance will result in unnecessary or undue hardship.

ARTICLE XIII

Enforcement

1301 It shall be the duty of the Board of Selectmen, and the Board is hereby given power and authority, to enforce the provisions of this ordinance.

1302 The Board of Selectmen or a qualified person duly authorized by the Board of Selectmen shall issue any and all permits when application for such permit has complied in all respects with the provisions of this ordinance.

1302-1 After passage of this ordinance, it shall be unlawful to erect, relocate, or alter the bulk of any building without first obtaining a Building Permit from the Board of Selectman or a qualified person duly authorized by the Board.

1302-2 No permit shall be required for remodeling where the purpose for which the building is to be used is not changed, or where the exterior walls of the building are not to be altered.

1302-3 A Use Permit shall be required for any of the following:

- a. Establishment of a professional office in a dwelling (as permitted by this ordinance).
- b. Change in the non-conforming use of buildings or land.
- c. "Occupancy of any vacant land for the purpose of erecting structures or the removal of natural resources or for any other use except the use of land for agricultural purposes."

1302-4 Upon any well-founded information that this ordinance is being violated, the Board of Selectmen shall notify said person by certified letter. If, within thirty (30) days of such notification, steps have not been taken to correct or cease such violation, the Board of Selectmen shall take immediate steps to enforce the provisions of this ordinance by seeking an injunction in the Superior Court or by any other legal action.

ARTICLE XIV

Validity

1401 If any section, clause, provision, portion or phrase of this ordinance shall be held to be invalid or unconstitutional by any court of competent authority, such holding shall not affect, impair or invalidate any other section, clause, provision, portion or phrase of this ordinance.

ARTICLE XV

Amendments

1501 This ordinance may be amended by a majority vote of any legal town meeting when such amendment has received public notices and hearings in accordance with procedures established in Chapter 31:64, New Hampshire Revised Statutes Annotated, 1955, as amended.

ARTICLE XVI

Penalty

1601 Whoever violates any of the provisions of this ordinance shall be punished by a fine, not to exceed \$10, for each day of such violation.

ARTICLE XVII

When Effective

1701 This ordinance shall take effect upon its passage.

1702 The passage of this ordinance shall invalidate any and all previous zoning ordinances of the Town of Milford.

ARTICLE XVIII

Appeals

1801 Appeals to the Board of Adjustment shall be in accordance with the zoning regulations as set forth in Chapter 31:60-89, New Hampshire Revised Statutes Annotated, 1955, or as may be amended. The Board shall, within ninety (90) days of the enactment of this ordinance, specify a calendar of regular meetings, place of meeting, procedures for hearings, appeals, forms and other items pertinent to the functioning of the Board and the proper administration of this ordinance.

ARTICLE XIX

Definitions

1901 For the purpose of this ordinance, certain terms are defined as provided in this section.

1901-1 **Accessory Building** means a building subordinate to the main building on a lot used for purposes customarily incidental to those of the main building.

1901-2 **Dwelling:** Any building, or portion thereof, which is designed or used exclusively for residential purposes.

1901-3 **Building:** Any structure for the shelter, support or enclosure of persons, animals, chattels or property of any kind.

1901-4 **Family:** One or more persons occupying a premise and living as a single housekeeping unit.

1901-5 **Frontage:** The length of a lot bordering on a public road, proposed road or right-of-way.

1901-6 **Home Produce and Products:** Everything of an agricultural nature grown, produced, conditioned or otherwise carried on on the property of the resident, also such articles as are manufactured or altered by members of the household of the bona fide resident of any property.

1901-7 **Record Lot:** Land designated as a separate and distinct parcel in a legally recorded deed filed in the Registry of Deeds, Hillsboro County, Nashua, N. H.

1901-8 **Mobile Home:** Any vehicle used or so constructed as to permit its being used as a conveyance on the public streets and highways and duly licensed as such, and constructed in such a manner as will permit occupancy thereof as a dwelling or sleeping place for one or more persons, and provided with a toilet and a bathtub or shower.

Synopsis of Town Meeting

March 8, 1966

Town Meeting was opened at 2:00 P. M. by the Moderator for voting on Town and School officers. First voter, Edward Thane; first woman voter, Annie Deans; last voter, Arthur J. Morell. Motion made by Louis Kregos to close polls at 8:00 P. M., and seconded by Robert Pelchat. So voted. Election officers present: Armstrong Hunter, Moderator; Scott E. Gangloff, Town Clerk; Supervisors of the Checklists, Samuel Palmer, Shirley Ethridge, and Lester Perham; Ballot Clerks, Flora Doucet, Florence Morell, Catherine Richardson, Hazel Adams and Mary Proctor.

Polls closed at 8:00 P. M.

Prior to business meeting, Rev. George B. Higgins was sworn in as Assistant Moderator and Mrs. Marjorie Webster as Assistant to the Town Clerk. Present for the meeting were the Board of Selectmen, Louis Kregos, Chairman, Salvatore P. Grasso and Charles F. Sullivan, Jr. and their Secretary, Mrs. Lura Seavey, new Superintendent of Public Works, Richard Currier, and Andrew Young, Jr., Chairman Budget Committee.

Annual Town Meeting called to order at 6:30 P. M. by the Moderator in the Milford High School Auditorium.

After the salute to the flag, led by three local Boy Scouts, Roy Littlefield, Brian Beaudrault and Alan Guertin, Mr. Louis Kregos was recognized and paid tribute to the late Donald C. Bruce, as follows:

"We are gathered here this evening as citizens have gathered for many years, to transact the business of the Town.

"From March 1936 to August 1965 our late departed Town Clerk, Donald C. Bruce, was among us. He was in so many ways an exceptional public servant. For more than 30 years he was courteous and helpful to all citizens. He was a modest and able man, devoted and eager to perform his duties, quietly and with great efficiency. His office has been filled by an equally able and efficient officer.

"As a memorial to Mr. Bruce, I respectfully suggest that he be included in our prayers this evening and that this Town Meeting of 1966 be dedicated to him.

"Please, a moment of silence."

Reverend Charles Gaines of the Unitarian Church then led the meeting in prayer.

There being no objections, the Moderator dispensed with the reading of the warrant as copies of the Town Report and Report of the Budget Committee were available.

Mr. Kregos at this time introduced Mr. Richard Currier as the new Superintendent of Public Works. Mr. Currier graciously responded, and hoped that his association with the Town in the years to come will be as friendly as was his welcome.

Moderator announced there would be a brief five minute recess of the Town Meeting to coincide with that recess at the School District Meeting, which will meet for five minutes at 8:00 P. M. while this meeting is in recess.

Article 1: Voting for Town and School officers.

Article 2: Voted in affirmative to raise and appropriate such

sums of money as may be necessary to defray Town charges for the ensuing year.

Article 3: Moderator stated that items in this article will be considered as the warrant is followed and passed this item.

Article 4: It was moved and seconded and voted in the affirmative to authorize the Selectmen to borrow money in anticipation of taxes as provided by law of 1907.

Article 5: The following sums of money were raised and appropriated:

Election and Registration Expenses	\$ 970.00
District Court	3,325.00
Public Works Administration	5,730.00
Town Hall and Other Building Expenses	6,000.00
Town Officers' Expenses	17,668.99
Town Officers' Salaries	10,400.00
Civil Defense	1,812.00
Fire Department	22,482.00
Hydrant Rental	
Milford Water Department	10,740.00
Wilton Water Department	180.00
Police Department	29,269.30
Police Cruiser	605.78
Communications Center	12,362.80
Health	4,500.00
Health Department	1,300.00
Sewer Maintenance and Correction	2,200.00
Town Dump	1,700.00
Vital Statistics	200.00
Highway Maintenance	17,000.00
Oiling	10,000.00
Snow Removal	21,300.00
Street Lighting	12,025.80
Town Road Aid	1,008.90
Libraries	10,436.07
Old Age Assistance	10,000.00
Town Poor	2,500.00
Memorial Day	450.00
Parks and Playgrounds	12,232.97
Information Booth	300.00
Damages and Legal Expenses	700.00

Social Security	4,600.00
Interest:	
Long Term Notes	1,767.73
Water Department	1,269.46
Temporary Loans	3,500.00
1960 Water	3,800.00
Sidewalk Construction	1,500.00
Indebtedness:	
Water	22,700.00
Other than Water	2,500.00
County Taxes	48,859.24

Acting under Article 5 – Fire Department original budget voted in the affirmative after much discussion on the Budget Committee's recommendation of a lesser amount.

Police Department – Budget Committee's recommendation voted in affirmative after very lengthy discussion in regard to salaries of men in the Department. Chief Rockwell spoke on the problems of retaining qualified and trained personnel with the present salary scale.

School – At 8 P. M. Town Meeting took a five minute recess at which time Mr. Higgins, School Moderator, ruled that the School Meeting be recessed again until the conclusion of Town business.

Mr. Kregos, recognized, inquired if Dr. Burns were in the meeting, asked the Doctor to step forward, then began a tribute, in behalf of the Townspeople as follows:

"I rise to express greetings to a man who has been with us and helped to keep us well for a long, long time. A few weeks ago Dr. Burns celebrated his 80th birthday. I am asking you to join with me to express our gratitude for the service he has given our community for the past 52 years, and in wishing him many Happy Returns."

Dr. Burns replied as follows:

"I was very much surprised to read a little article in the Milford Cabinet a short time ago. I have lived pretty much as I wanted to for the last 50 years. I only expect to put in about 10 or 12 more years and then I will call it even. I appreciate more particularly that the Board came up with such an article. Thank you very much. I'll see you in 1976."

Mr. Robert Philbrick then remarked as follows:

"I think that the Moderator agreed this afternoon that this was the hour to pass out bouquets, so I am here for a similar purpose, rather than waiting until the hall is half empty at the end of the meeting. When you look at the cover of the Town Report, I don't need to tell you that we have had in the town of Milford this year a marvelous new addition to our facilities. In the hall tonight is a gentleman who, more than any of us in the town, seems to have been responsible for bringing this about. His activities seemed to focus the attention of the Trustees of the Keyes Fund on this subject and brought about their generous gift to the town of Milford. More than that, he was Chairman of the Swimming Pool Committee and I know personally of the tremendous amount of time and personal expense and hours of dedicated effort that this gentleman put in before the pool opened and continued on all through the summer. Certainly I am safe in saying that without his efforts we would not now have this pool operating in the town of Milford at the present time. I think it very fitting tonight that we ask the Chairman of the Swimming Pool Committee, Mr. William Ferguson, to rise and receive the appreciation of his fellow townspeople."

Mr. Ferguson expressed his thanks.

Town Poor – Work of the Overseer of the Poor to be handled for the present by the Superintendent of Public Works.

Industrial – Motion to raise and appropriate \$300.00 to have a brochure made of the town of Milford including schools, Police Department, Fire Department, Industries and industrial possibilities was voted in the negative.

Recreation – Parks and Playgrounds – Regular and Swimming Pool all under one heading for 1966. The appropriation of \$12,232.97

was for the expenses of all the Parks and Playgrounds in the town, not just Keyes Field.

Article 6: Beano voted by ballot. Yes—399, No—154.

Article 7: Voted in the affirmative to raise and appropriate \$1,100.00 to purchase 1,000 feet of 2½ inch fire hose for the Fire Department.

Article 8: Voted in the affirmative to raise and appropriate \$2,955.85 to replace the 1960 two ton International dump truck with a 1966 larger dump truck.

Article 9: Mr. Sullivan moved, Mr. Grasso seconded, and voted in the affirmative to raise and appropriate \$3,900.00 for a new sewer cleaning machine complete with attachments, to replace an old smaller unit that had proved somewhat dangerous to operate.

Article 10: On recommendation of Budget Committee the sum of \$676.32 was raised and appropriated to be added annually to the street lighting budget item, for the purpose of increasing and modernizing the lights on Nashua Street.

Article 11: Instead of the amount of \$5720.00 requested in the Warrant, \$1600.00 was raised and appropriated for the purpose of purchasing a small tractor and two additional mowers.

Article 12: Moved by Mr. Bilodeau and seconded by Mr. Grasso to authorize the expenditure of \$4578.00 from the Parking Meter Fund for the purpose of further development of parking in the Union Square business area; to consist of installing 41 dual parking meters, increasing and metering the present parking area cornering on School and Maple Streets, metering the area cornering on Middle and School Streets and developing a free parking area adjacent to the Souhegan River below the Swinging Bridge. Voted unanimously.

Article 13: After much discussion in regard to height of Dam, loss of flowage rights and retaining of the water rights by Milford Textile Company, it was voted in the affirmative to rebuild the Dam.

Article 14: Moved by Budget Committee and seconded by Mr. Ferguson, voted in the affirmative to authorize the Selectmen to make application to the Federal Government for any and all grants available for the reconstruction of the Dam on the Souhegan River.

Article 15: It was voted in the affirmative that the meeting be recessed for the purpose of acting upon the report of the Dam Study Committee until June 14, 1966.

Article 16: Motion to appropriate the sum of \$14,000.00 for the purpose of having the assistance of the New Hampshire Tax Commission in reappraising all taxable real estate, was voted in the negative.

Article 17: On motion of Mr. Colburn seconded by Mr. Fletcher, that this article to purchase the White Elephant property on Nashua Street, be laid on the table, was voted unanimously.

Article 18: In accordance with the Budget Committee recommendation it was voted in the affirmative to authorize the expenditure of \$4630.00 from the Parking Meter Fund, to be matched with \$4630.00 from State funds for resurfacing Elm Street from Union Square to the compact line.

Article 19: This article to raise and appropriate \$2000.00 for two granite posts at the entrance to Keyes Memorial Field, not recommended by the Budget Committee, was voted in the negative.

Article 20: Budget Committee did not recommend this article to raise and appropriate the sum of \$1426.08 to the Monadnock Region Association. So voted.

Article 21: Voted in the affirmative on Budget Committee recommendation to raise and appropriate the sum of \$1000.00 for the purpose of hiring a qualified accountant to consolidate the book-keeping procedures of the Selectmen's and Public Works' Office.

Article 22: Recommended by Budget Committee, voted in the affirmative, to raise and appropriate \$1000.00 for alterations necessary in the Selectmen's Office to accommodate the consolidation of this office and the Public Works' Office.

Article 23: On Budget Committee recommendation it was voted to raise and appropriate \$5000.00 instead of \$6000.00 which was requested, for the purpose of making the alterations necessary to have the District Court in the existing Public Works' Office.

Article 24: Under any other business that may legally come before said meeting, Mr. Potter asked for a report from the dump committee, but the committee did not have a report ready. Mr. Potter then moved and the motion was duly seconded that the dump committee be instructed to report at the recessed meeting on June 14. It was unanimously voted in the affirmative.

Mr. Grasso made report to the meeting that at the last meeting of the Selectmen, Thursday night, March 3, 1966, it was entered on the records that Mr. Kregos had served on the Board for six years and had never missed a meeting.

Mr. Young moved and Mr. Grasso seconded that the Public Caucus be held at the Jacques Auditorium next year rather than in the Town Hall. Voted in the affirmative.

Voted in the affirmative to have two Public Caucuses, one for School, one for Town, to be held on separate nights with details to be discussed at another time.

Mr. Prestipino moved and it was voted in the affirmative that it be established Town policy each year, if possible, that salaries and wages paid Town employees by the Town be printed in Town Reports in the future.

Dr. Law moved and it was duly seconded that the meeting be recessed until June 14, 1966. Voted unanimously in the affirmative, whereupon the meeting was declared in recess at 11:50 P. M.

State of Town Ballot announced at 11:03 P. M.

The following Town Officers were elected:

Town Clerk	Scott E. Gangloff
Town Treasurer	Hugo E. Trentini
Trustee of Trust Funds	Hugo E. Trentini
Selectman	Joseph M. Silva
Fire Warden	Dominic A. Calvetti
Auditors	Robert P. Odell. Sr. and Allen G. White
Library Trustee for 3 years	Robert C. Kendall and Harry E. Turner

State of School Ballot announced at 11:45 P. M.

The following School Officers were elected:

Moderator	George B. Higgins
Clerk	Nellie D. Piper
School Board Member for 3 years	Charles W. Ferguson
Treasurer	Richard D. D'Amato

Total votes cast:

Town	834
School	833

Respectfully submitted,

SCOTT E. GANGLOFF, Town Clerk

Synopsis of Recessed Town Meeting *June 14, 1966*

Meeting called to order at 7:30 P. M. by Moderator Armstrong Hunter, to act upon:

1. The report of the Dam Study Committee.
2. To hear report of the Dump Committee.
3. To transact any other business that may legally come before said meeting.

Article 1: Motion made by Mr. Markham, seconded by Mr. Ferguson, and voted unanimously that the town raise and appropriate the sum of \$20,000.00 for the purpose of constructing a dam across the Souhegan River; such sum to be raised through the issuance of bonds or Serial Notes over a period of four years under and in compliance with the provisions of Chapter 33 New Hampshire Revised Statutes Annotated 1955 as Amended, the Board of Selectmen to have the discretion of fixing the date, maturities, denominations, interest or discount rate, and place of payment as authorized under Section 33.8 New Hampshire Revised Statutes Annotated 1955 as Amended. Also voted unanimously that work be put out to competitive bidding and that the existing committee be reappointed to complete design and get it built.

Article 2: As the Dump Committee did not have a report ready, it was voted to have the Committee report at the 1967 Town Meeting.

Article 3: Under any other business that may legally come before said meeting, Mr. Breck moved, Mr. Adams seconded, and it was voted unanimously, that the Moderator appoint a committee of five to study and recommend a plan for the development of the Emerson land as a park—the land along the river by the Post Office, said Committee to report to the Town Meeting in March of 1967.

There being no further business, meeting adjourned at 9:10 P. M.

Respectfully submitted,

SCOTT E. GANGLOFF, Town Clerk

Milford

Deposit Milford Co-operative Bank		\$ 8,754 66
Deposit Souhegan National Bank		9,323 93
		\$18,078 59

Jemima Wallace came to Milford from England about 1910. She had been trained as a nurse, and spent her life here in that profession. Her interest in people in general, and the young people of Milford in particular, led her to mention the high school in her will and the above fund is the result. The income is for school purposes as defined in the bequest, and is administered by a board of five trustees. Jemima Wallace died July 15, 1964.

Report of the School Board

The past year has seen many changes in the Milford School District. Maurice Jewett, long time treasurer of the District, chose to step down from his post after many years of faithful service to the town's schools. Richard D'Amato was elected in March to fill this position. Two of our elementary teachers, Beatrice Miller and Muriel Young retired after teaching in the Milford schools for 36 and 45 years respectively, with a combined total teaching career of 81 years.

The District and the Supervisory Union lost a dedicated servant in the passing of Mabel Connolly, Teacher Consultant, who gave 12 years of devoted service to the Union's schools. Mr. Edward Lawton, our new Teacher Consultant, has taken over these duties.

The end of the 1965-66 school year saw a sizable exodus of teachers from the Milford schools for a variety of reasons. The School Board commends the Superintendent of Schools, John A. Murphy, for his outstanding job of procuring approximately 54 new teachers by the opening of school in September as replacements and to fill new positions.

This year also saw a change in school bus operators with the sale of Draper's buses to Ernest Barrett, owner of the former Clark's Garage in Amherst and transporter for the neighboring Amherst District. Ernie, a Milford resident and former school board member, has continued the fine service with quality equipment that was always rendered by Harry Draper in the past.

The decision, late last summer, by the Tyngsboro, Mass. School District not to rent the former Milford Junior High School for a two or three year period left the school board with somewhat of a problem as to what next? The answer came in part by the Supervisory Union's consideration of moving into the building due to lack of sufficient space in the Professional Building, and a timely expiration of the lease. With no other use for the entire building for some years, the board agreed to rent space to the union and thus provide some income to help maintain the building until future use has been determined.

The Laurila house, on property acquired by the District last year, has been rented and is providing income to help offset purchase payments.

The improvement of the Garden Street Elementary School grounds, voted at the annual meeting, got started this summer with the hot-topping of a large area around and in front of the school. Landscaping and loaming progressed till fall and seeding and planting will be completed in the spring.

This past year saw completion of the addition to the Milford Senior High School, now known as the Milford Area Junior Senior High School, which was built to increase the capacity to 1200 students in accordance with the Milford-Amherst Area School plan. With some misgivings, school opened in September with grades 7-12 in the new (and old) school under less than the best of conditions. Due to lack of materials and manpower, some phases of completion were held up for considerable time, but with the splendid cooperation of the administration, the teaching staff, the students and parents, the best was made of a far from desirable beginning to the final clean-up stages of construction in January of this year.

Prior to cold weather (and frost) drives, walks and parking areas at the High School were hot-topped and a large portion of the landscaping was completed with the balance of seeding and finishing scheduled for spring.

It became apparent to the school board this past year that long range planning was essential to the continuation of a sound educational program for our children and realized the need for the establishment of a continuing study of school needs, unrelated to changes in board personnel. The board has appointed a twelve (12) member study committee and charged them with the responsibility of determining what facilities the community will need and desire in the immediate and long range future, taking into consideration the Milford, Mont Vernon, Amherst complex, as well as areas of educational needs surrounding the community. This committee will also investigate and advise the board on need for additional land purchases and school buildings as they relate to population and enrollment trends.

The members of this committee are: Alvan Hicks, Paul Rizzi, David Hoadley, Mrs. Lorraine Prestipino, Mrs. Roland Rivard, Colin Lizotte, Richard Hanchett, Mrs. Margaret Doyle, Stanley Moulton and Owen Fisk, all of Milford and Peter Dunlap of Amherst.

In summary, much has happened in the Milford School District in the past year, but the board feels that the end result is a general improvement in the Milford schools, in the expansion of physical plant, the improved curriculum and the striving for quality teachers. The challenge in the years to come will be to continue to maintain quality education for our children, and at the same time, meet the demands of an ever increasing population growth and its accompanying rise in school enrollment.

WARRANT

For Annual School Meeting

*To the Inhabitants of the School district in the town of Milford
qualified to vote in district affairs:*

You are hereby notified to meet at the Milford Area School in said district on the eleventh day of March 1967, at seven o'clock in the afternoon, to act upon the following subjects:

1. To determine and appoint the salaries of School Board and Truant Officer and to fix the compensation for any other officers or agents of the district.
2. To hear the reports of agents, auditors, committees, or officers chosen and pass any vote relating thereto.
3. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.
4. To see if the district will vote to authorize the School Board to make application for and accept on behalf of the district any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or the State of New Hampshire or from any other source.
5. To see what sum of money the district will vote to raise and appropriate for the support of the schools, for the payment of salaries for school district officials and agents, and for the payment of the statutory obligations of the district.
6. To see if the district will vote to approve the position of Business Manager for Union No. 40 and accept State Aid for that position.

7. To see if the district will vote to raise and appropriate the sum of \$14,750.00 or any other sum for the purpose of installing new windows at the Garden Street School and to determine whether such appropriation shall be raised by borrowing or otherwise.

8. To see if the district will vote to raise and appropriate the sum of \$7,000.00 to convert the Junior High boiler to oil and make necessary repairs to the boiler unit.

9. By Petition: To see if the district will vote to raise and appropriate the sum of \$11,000.00 for instituting special class services for trainable retardates in the Milford public schools.

10. By Petition: To see if the district will vote to raise and appropriate the sum of \$8,000.00 for the purpose of instituting inter-scholastic football at the Milford Area School.

11. By Petition: To see if the district will vote to raise and appropriate the sum of \$6,300.00 for the purpose of instituting Driver Education at the Milford Area School.

12. To see what sum of money the district will vote to raise and appropriate for the installation of a fire hydrant on the George Street side of the Area School.

Given under our hands at said Milford this 16th day of February 1967.

ADMINISTRATION

Superintendent

I herewith submit my second annual report as Superintendent of the Union No. 40 public schools. My report will be directed at three areas: 1. An assessment of the past year. 2. Implementations of recommendations made in 1965-66, and 3. Recommendations for future needs.

The 1965-66 school year was rewarding and successful. For this, I owe a great debt of gratitude to an excellent corps of teachers and administrators, to the cooperation and enthusiasm of the parents of this community, to an extremely capable and dedicated central office staff, and to the firm foundation laid by past administrators.

I would be remiss if I did not single out members of the School Board for special commendation. Without their cooperation, understanding, and wisdom, a successful year could not have been realized. The School Board has discharged its responsibilities with admirable courage and determination in the true spirit of dedicated public service.

If I was to single out one outstanding accomplishment during this past year, it would be the opening of the new Milford Area Junior-Senior High School in September of 1966. This school was forced to open under extremely difficult conditions. We were without heat, rooms were partially completed, and the workmen went about their busy schedule of construction in the midst of pupils and teachers busily at the task of education. In spite of the difficulties, our pupils and teachers conducted themselves in an outstanding manner. Without their full cooperation, school operation would not have been possible. It is also important to note the fine cooperation received from parents in the area towns. My office had only one call to protest the school conditions during this period. You, the parents, are to be commended for your patience and support.

The new school is now substantially completed and the people can be well assured that this building is the product of quality construction. You have a school you can be proud of.

The library facilities are recognized as the finest in the state. The planning and design are a tribute to a hard working area committee, school building committee and School Board. These people spent long hours overseeing the completion of this project, and their dedication to the task has borne quality results.

This year, for the sake of administrative efficiency, we have reorganized the staff at the Area School. Rather than continue with two principals, we have appointed Mr. Corson principal of the Area School with complete administrative authority. Mr. Buck has been appointed Curriculum Director with authority in the area of curriculum research. Mr. Desmarais has been appointed vice-principal and functions in the area of pupil discipline, extra curricula activities and general plant management. These three men have done a remarkable job organizing their staff and guiding the program at the Area School.

The Junior High School building was put to use during this past year. Supervisory Union offices have been moved into this building and occupy four classrooms as office space and one room for conference purposes. The gymnasium has been used by the Special Class and the Jacques School pupils. It was necessary to move one third grade from the Garden Street School to the Annex due to larger primary grade enrollments.

An equally rewarding experience was to see the completion of plans for a new elementary school in the Town of Amherst. The building, which is now under construction, will represent the careful planning of a dedicated group of men who labored long hours to plan the State's first library-centered elementary school. The building will be ready for occupancy in September of 1967.

This year also marked initiation of a special study committee to examine the long range needs of the Milford schools. A similar committee is scheduled to begin operation in Mont Vernon in early spring of 1967. As is becoming more evident each day, the southeastern corner of New Hampshire is expanding rapidly in population, and the foresight shown by citizens in our community to plan for long range educational needs is truly rewarding.

Mont Vernon has continued to provide a quality program under the very capable direction of Mrs. Clark. Unfortunately, Mrs. Clark has decided to culminate her career in education in 1967. Mrs. Clark will be missed by all who have been fortunate enough to have worked with her. Retiring with Mrs. Clark will be Mrs. Scully, our most capable first grade teacher. Filling these two positions with equally competent personnel will be one of the greatest challenges I have faced as Superintendent in this district. I extend best wishes to Mrs. Clark and Mrs. Scully for a well deserved and enjoyable retirement.

Mont Vernon has been plagued with space problems this year. We have had to divide the grade one-two combination and have hired an additional teacher for grade two. By doing this, we have moved into the former work room and now are utilizing the building 100 %. Projection studies show that the present facilities will not be adequate for more than one or two years.

This year has been a very successful one for Brookline in terms of educational growth. We have been able to concentrate on the immediate needs of the elementary program and have made significant improvements at all levels. Among the most significant is a modified team approach to instruction in grades four, five and six, and the addition of physical education to the upper elementary program.

The Town of Brookline has also embarked on a planning program and their committee will present to the townspeople, plans for a four or six room addition to the present elementary facilities. Brookline, like other communities, is faced with rapid growth. At present, classes are being conducted in the basement of Daniels Academy and two sections meet in the all-purpose room of the Elementary School. I hope the citizens of Brookline will act favorably to extend facilities at the Elementary level and allow growth in the quality of educational offerings.

The Hollis School Board appointed a special study committee in 1966 to examine their educational needs and this completed

the cycle for the Union 40 schools. When Mont Vernon begins their study in March, we will have 100% activity in the area of educational planning. Hollis, like each community, is plagued with growth problems and, like each other town, they are getting ready in advance. The Hollis committee will be making recommendations for additions at both the Elementary and Secondary schools. The projections of the Hollis Study Committee indicate a marked population increase in the years ahead and a need for continued planning for school space.

The residents of Hollis should be extremely proud of their efforts to support education. This effort has been one of the greatest in the State of New Hampshire and it has provided one of the state's most highly regarded programs. I would like to pay special tribute to the Hollis principals for their dedication to education and for the quality job done by them. It is a pleasure to work with administrators like Mrs. Jacques and Mr. Thorburn. Hollis is fortunate to have them on the staff.

Another event worthy of consideration was the large number of vacancies filled before September of this year. I have made a special effort to observe our new teachers and I take great pride in reporting that this is the finest group of young people we could ever hope to have on our staff. I am sure that the citizens of the community have been equally impressed with the quality of these new teachers. Our new members, together with our very competent veteran staff, have allowed us to continue forward in our quest for quality education in Union 40.

As I completed my first year as Superintendent of Schools, I was most impressed with the remarkable job done by the laymen of our community. Your dedicated contributions have placed education where it is. You can be proud of your accomplishments. I hope that each member of our community, who has contributed, will accept this message as my sincere note of thanks for the accomplishments of the past year. You have made the greatest contributions; your time and energy and the results have already begun to pay big dividends.

Some citizens may not be in agreement with my assessment of the progress in our schools. They may feel that the schools

are not progressing at a rate that is commensurate with the community's potential. If this is the case, I urge you to please bring your criticism to us. Too often, our critics are vocal only when out of range of school officials. We welcome constructive criticism and solicit your comments on education.

We have no monopoly on wisdom. You, the citizen, should demand good reasons for the actions we advocate and when you doubt our actions, please come forward and express your opinion. By the same token, I also urge you to speak up for education. You must let your School Board know that you support excellence, and that you are willing to pay for it with tax dollars, with votes and with service. It is not the educators who are in charge of your schools, but you the citizens. You take charge every time you attend the School District Meeting and vote on issues, and everytime you grasp or neglect an opportunity for planning and financing education. This office is open to the people of our community, and I welcome your comments, positive or negative. I want to work with you to stress fine schools and excellence in general. I hope you will agree that our children deserve the best.

Review of Recommendations

With the assistance of Federal funds, two of the recommendations made a year ago have been implemented. In April of 1966, we organized a Curriculum Council designed to improve coordination of curriculum - one through twelve. The council is composed of twenty-three faculty members and their primary objectives are to: 1. Coordinate curriculum by subject area in grades one through twelve, 2. An interdisciplinary coordination of curriculum, 3. Improvement of communication between faculty, administration and school board, 4. Improvement of communication between the Union 40 schools for the development of a meaningful program. The council will be responsible for developing complete course guidelines in each of the major subject areas. This project is designed for completion in a three year year period.

The second recommendation that was made a year ago was to establish an elementary guidance program. Again, with the

assistance of Federal funds, we were able to hire Miss Nancy Mauri as an elementary counselor to serve the Union 40 towns. Miss Mauri has been assigned a tremendous task and has carried on her duties in a most commendable manner. In addition to conducting student conferences, Miss Mauri is available for parent conferences Thursday evenings of each week from 7 in the evening until 10. We are also in the process of developing a better testing and test evaluation program through the elementary guidance office.

The third recommendation made a year ago was the implementation of a kindergarten program for the area towns. Unfortunately, due to the increased costs and rising number of pupils in the towns, this recommendation has had to take a lower order of priority in our program development.

Future Needs

The basic test that we must apply to our schools is "Does the growth sought in pupils coincide with the functions established for the schools". The schools of our community are effective if they are accomplishing the objectives as stated in their philosophy, i.e. the schools are dedicated to educating every child to the maximum of his potential. In assessing our current program, we can say that the schools are doing a most commendable job of caring for the majority of our pupils. We are neglecting a few at the extremes, however, and recommendations are being made to care for these deficiencies. We are presently offering an effective program for the retarded. We have, however, another group of youngsters that is presently being cared for in private facilities due to lack of public school concern for their needs. These youngsters, defined as trainable, are as entitled to learning experiences as any other member of our community, and for this reason, I recommend the adoption of a program for their education in Milford. The Milford school could serve as a base for receiving tuition pupils from other districts. A program of this type should be no more costly to Milford residents than tuitioning their children to other towns. Each sending district will contribute to the total operating costs of the program. At the other end of the spectrum, we have our

gifted children. We are attempting to accelerate their program through grouping practices at the elementary and secondary schools. There are, however, a percentage of pupils in each community who will benefit from a special program designed for the creative child. Next year, I am recommending a pilot program for the Town of Amherst. If accepted by the district, this program will serve as a pilot project for the State of New Hampshire, and together with our trainable program in Milford, will give us an opportunity to assess full implementation of our philosophy of education.

As stated earlier, we are in an area of rapid population growth and must continue to assess our needs. Each town is presently studying future population impact on education. I hesitate to make recommendations pending the findings of these studies, but feel that thought should be given in the Milford area complex to the consolidation of elementary programs at the intermediate level, grades five through eight. The construction of such a central facility would provide an emergency valve for elementary expansion in each community and relieve possible overcrowded conditions at the present Junior-Senior High School. Hollis is located in an area that could be expanded to include Brookline and other non-district towns at the 7 - 12 level.

We are also faced with a need of additional staff members at both the elementary and secondary schools to keep the pupil-teacher ratio at an acceptable level. This year's budget will request additional staff members in all of the area towns to maintain this ratio. The remainder of my recommendations will be found incorporated in the reports of the Teacher Consultant and the principals. I hope that careful consideration will be given to each of these recommendations.

I would like to pay tribute to those teachers who will be retiring at the end of the 1966-67 school year. They are: Mrs. Margaret Clark and Mrs. Elizabeth Scully in Mont Vernon, and Mrs. Hazel Tonella, Miss Elsie Wheeler, Miss Doris Rowell and Miss Mary McGettigan in Milford. These teachers have served our community and children faithfully for the past years. I join

the entire faculty and community in thanking them for contributions to this field.

In conclusion, I would like to pay tribute to the memory of Mabel Connolly who died during the 1965-66 academic year. Miss Connolly had planned to retire from her Teacher Consultant position in June of 1966, but unfortunately was taken from us in March. Miss Connolly was a dedicated and devoted member of the Union 40 staff. As Teacher Consultant, Miss Connolly brought new life to the schools. Through her efforts, the elementary program reached an all time high. Miss Connolly possessed, to an unusual degree, the personal attributes and professional requirements of a great teacher and administrator. She established a standard of quality to guide and inspire all who will be associated with the Union 40 schools.

JOHN A. MURPHY,
Superintendent of Schools

Our Teacher Consultant

This constitutes my first annual report as Teacher Consultant for Union No. 40 schools. Since assuming the position in August, 1966, I have found it to be both an exciting challenge and a rewarding experience. Considering the growth potential of the area and the constantly increasing educational needs and desires of our children and our society, there is every reason to expect more exciting and demanding challenges, with unlimited opportunity for rewarding experiences in the future.

This report is intended to explore the requirements of the position, focus upon the challenges and suggest the potential benefits to Union No. 40 communities resulting from meeting these challenges. To accomplish these purposes, this report is organized in sections as follows:

1. Details of Position
2. Impressions
3. Action Initiated
4. Recommendations
5. Concluding Remarks

Details of Position

Basic responsibilities of the position remain unchanged from the past year. Emphasis on various responsibilities has changed, however. The addition of a full time elementary guidance counselor has shifted much of the direct involvement in details of guidance, testing, home and community work to that office. General supervision of the work of the guidance counselor has become the direct responsibility of the teacher consultant. Curriculum studies, help to teachers to secure materials, suggestions for use of materials, organizations of in-service programs and assorted research projects, all designed to aid instructors and help improve instruction occupy a considerable percentage of the teacher consultant's time. Directly related to these duties is the continuing responsibility of cooperating with the secondary principals to hasten articulation of curriculum from grades one through twelve. Also, much more time is to be devoted to assisting in the recruitment of elementary level teachers by this office.

Finally, the most significant change in emphasis has been the establishment of supervisory and evaluation techniques which will help teachers in classroom situations and also rate them for merit pay purposes. The number of visits to each classroom for these purposes now represents the greatest time requirement of this office.

Reporting, advising and recommending on coordination and supervision of the curriculum and the instructional program is done constantly through the superintendent to the various boards of education.

Impressions

The general quality and dedication of staff members, administration and members of the various boards of education represent encouraging strength in planning and implementing the instructional program. An apparently strong foundation laid by previous staff, administration and board members, contributes immeasurably to the present status of the instructional program in Union No. 40 schools.

There have been several encouraging, significant innovations

during the past year. The forementioned addition of a full time guidance counsel was one. Another was the establishment of a curriculum council, comprised of and directed by Union No. 40 teachers which has already resulted in identification of curriculum problems and implementation of steps to improve our programs. Also important was the establishment of a merit evaluation pay program for teachers intended to reconcile payment of salaries with performance and to encourage individual initiative, instructional improvement and the recruitment and retention of superior teachers. These and other efforts indicate an awareness of and concern for providing a quality program for Union No. 40 children.

Action Initiated

Since the beginning of the present school year, a number of programs and/or steps have been initiated by principals, by this office, or through mutual cooperation, which have been intended to help strengthen the instructional program and to assist teachers in improving instructional techniques and in evaluating new materials and programs.

Among these are the following:

1. Initial steps to coordinating curriculum programs from grade one through twelve. (In conjunction with the curriculum council and secondary principals.)
2. Team teaching organization (Amherst, Grade 4) – Departmentalization (Grade 4-6, Brookline).
3. Revised readiness testing program.
4. Adjusted achievement and I.Q. testing programs.
5. In-Service programs for teachers including consultant service in mathematics, reading and language arts, and provision for scheduling teachers from one union town for visits in classrooms in another union town to derive benefits from observing different, effective teaching techniques and exchanging ideas.
6. Provision for more extensive purchase of visual-aid materials.
7. Establishment of a teacher-resource library at the Superintendent's office.

8. An independent reading program (apart from the regular program, but intended to complement it) in Brookline grade six.
9. Revisions in the penmanship program.
10. Initial steps in each of the following:
 - a. An evaluation of school program project in conjunction with the State Education Department in Amherst.
 - b. A study of permanent record cards for improvement upon present system.
 - c. A study of the system of grouping children for instruction purposes.
 - d. Orientation program for substitute teachers.

Recommendations

The position of teacher consultant offers a unique vantage point for involvement in and evaluation of the total school program. It is obvious that the consultant has a fundamental responsibility to make recommendations related to the educational program. To identify and overlook problems would be a serious neglect of the interests of the children, staff members and taxpayers of the Union No. 40 towns. After careful, studied consideration, the following recommendations are offered:

1. Addition of specialists in reading at the elementary and secondary level. Eventual addition of consultants in other major subject areas for assistance to staff members rather than for evaluation purposes.
2. Reduction of teacher-pupil ratio to 25 to 1 generally and 20 to 1 at the grade one level. (Large group instruction organization excepted). This recommendation is not simply opinion; it is based upon consideration of the Union program and research data.
3. Consideration of a Middle School Program for Area towns and an eventual Cooperative School Program from grades five through twelve.
4. Consideration of a kindergarten program throughout the Union.
5. Addition of a full time aide in Special Class. Initiation of a program for trainable children.

6. Consideration of a full time physical education instructor at the elementary level. (Obvious building facility plan adjustments necessary to implementation.)
7. Addition of the position of Assistant Superintendent for Instruction with retention of the position of Teacher Consultant. This is necessary to more effective implementation of merit pay evaluation and general supervision.

Concluding Remarks

This is a lengthy report, of necessity. Re-directed emphasis and expanding requirements resulting from demands of a modern society on the educational program help to make it so. This, in my best judgment, represents a true assessment of the present situation and immediately apparent future needs. The educational program of this Union has many strengths, but much is yet to be accomplished if we are simply to sustain what is good and improve upon weaknesses. Assuming a desired quality beyond the status quo, however, this report considers necessary steps to accomplishing minimal standards and offers programs for progress beyond that which is minimal. This office will constantly work towards quality in the interest of progress throughout Union No. 40.

EDWARD J. LAWTON, *Teacher Consultant*

Milford Area

Junior-Senior High School

On September 7th, we opened our doors to approximately 1110 students. Once again we are a combined Junior-Senior High School. Our problems were many as the building was only two-thirds completed. To gain the necessary operating space, we allotted every conceivable area for classes. We had no clocks or bell system, we had no heat, and in most cases, no light. We did, however, have a student body and a faculty who, through cooperation and hard work, made the beginning weeks successful ones. For this, we the administration, want to thank them.

That the United States is a nation on the move is attested to by the fact that we have a total registration now of 1138 pupils. In addition to the many pupils registered during the summer, we had, on opening day, 50 students that were entirely new and unknown to us. Since opening day we have had 42 new pupils.

At this writing, the school is just about completed, and is one of the finest in the State of New Hampshire. In keeping with today's educational practices, there is incorporated in this new addition a library, second to none in New Hampshire. This will enable us to carry out our plans for becoming a library-centered school. Other advantages of the new addition are a lecture room with a capacity of 100 pupils to carry out our plans for large-group instruction and team teaching; a 600 seat Cafetorium for lunch purposes, dramatics, and for all large gatherings, leaving our gymnasium free for its intended purpose; a small lecture room for demonstration purposes, well-equipped suites of rooms for all disciplines, and well-designed and functional rooms for Administration and Guidance. All of this, plus a beautifully landscaped exterior, give Milford a secondary school of which we can be exceptionally proud.

This year we have twenty-six new teachers on our staff. Some

are replacing teachers that have moved on to other schools, and some are to meet our increased enrollment.

Enrollment growth in our schools has been very rapid. To illustrate this point, in 1957 Milford graduated 48 pupils.

Ten years later in 1967, we have a staff of fifty-nine, and the senior class has 150 members. Our new school was planned to reach an enrollment of 1200 pupils over a ten year period.

Several of our new teachers have prior teaching experience in other school systems. Some of our new teachers are in their first year of teaching. We feel very fortunate in the staff we have acquired for this year. They are performing at a very commendable level. It is most unusual to have so many new teachers, and have them all get off to a good start. Our anticipated enrollment for the next school year is such that we must again ask for additional teachers. This is necessary if we are to continue with our excellent program.

In the area of curriculum, there has been, and will continue to be, much activity. Some of our courses are undergoing an internal change to keep them abreast of the best current knowledge. Changes are very rapid today, and we must strive to keep up with what is current so our boys and girls will be prepared to meet the world in which they will live. The various departments within the school are meeting weekly to discuss better methods for teaching what must be taught. They work together to effect changes that have to be made. The spirit of cooperation on the part of teachers has been excellent. Without it, we could not do the task cut out for us.

Some new courses of study have been started to meet the needs of our pupils. One of these courses is the new Food Services program. This course is a vocational course, designed to meet the needs of youngsters who would like to work or go on to further study in the culinary arts field. Another new course is entitled "Vocational Mechanical Drawing." This course is designed to help those boys or girls that would like to enter the field of Drafting. Both of these courses are two year courses.

At the present time, we are studying changes in our Social Studies curriculum. We feel that the offerings in this area are much too limited. We would like to provide the opportunity for some in-depth study in the field of Social Studies. The English department is examining the new field of linguistics. Through the efforts of the Union 40, Curriculum Council during the second semester of this school year, our English teachers and district Elementary teachers are able to take an orientation course in the field of linguistics. In the field of Mathematics, our Math department is studying the possibility of implementing a course entitled Math I. This course will be followed by a course entitled Math II. These courses would replace the present General Math course. It would permit a youngster in a two year period, working at a much slower rate than at the present time, to have the equivalent of one year of Algebra, as well as much of the material that is now covered in the General Math course. A course of this type would meet the needs of several of our youngsters who progress at a rather slow rate. There is also discussion in the area of Computer Mathematics.

It is well that we have a Study Committee working on future plans for housing the pupils of the Milford area. A look at projected figures gives one considerable food for thought. Keeping in mind that the Area school is designed to house 1200 pupils at 90% utilization, I submit the following projection:

For the year 1966-67, we at this writing, have the following enrollments:

Grade 7	206
Grade 8	210
Grade 9	176
Grade 10	189
Grade 11	144
Grade 12	146
Specials	23
<hr/>	
Total	1094

Projected to the year 1967-68:

Grade 7	200
Grade 8	203
Grade 9	209
Grade 10	181
Grade 11	193
Grade 12	145
Specials	23
<hr/>	
Total	1154

If by chance, we have, as we did this year, the 50 new and unknown pupils, we would be at capacity next year.

Once again, the number of pupils going on to post-secondary schools increased from last year's 57% to a new high 65%. 30% of these went on to four year colleges, and another 35% went on to Junior Colleges, and other types of educational endeavors. All of our vocationally trained pupils found employment or went into the various services. We expect that with our increased Vocational-Training programs, we will have many more trained workers for the labor market in future years.

On behalf of the Administration, faculty and pupils, we want to thank you, the citizens of Milford and Amherst, for your continued interest in providing quality education for the youth of the area. We want to thank the school personnel, local organizations and individuals for the many services and kindnesses shown us throughout the school year.

Respectfully submitted,
CHESTER S. BUCK
GEORGE H. CORSON

Milford Elementary School

Doris M. Rebidue, *Principal*

The Milford Elementary School opened in September with an enrollment of 725 youngsters and to date it has reached a total of 748 pupils. New teachers employed this year are Mrs. Catherine Currier, Mrs. Eloise Carleton, Mrs. Trudy Patnode, Mrs. Janet Kovner, Mrs. Linda O'Connor, Mrs. Jane Leavitt, Mrs. Lillian Maynard, Miss Barbara Brazier, and Mr. Larry Payne. One new position was created in the second year because of the very large class. The other new teachers replaced Mrs. Margaret Rapp, Miss Beatrice Miller, Mrs. Cynthia Baer, Miss Muriel Young, Mrs. Nancy D'Amato, Mr. Neil Macierowski, Miss Ann Jackson, and Mrs. Helen Foot.

Elementary Classes have expanded into the old Junior High School Annex. One third year class, formerly housed at the Garden Street School, occupies one class room and the Special class, formerly housed in Amherst and taught by Miss Joan Buckley, occupies a second class room. The home economics room is used as an art room two days a week and for an all purpose room the remainder of the week. The fourth room is a combination library and music room. This is in almost constant use for private and group lessons as well as for orchestra and band practice.

We have the services of an elementary guidance counselor employed by Supervisory Union No. 40. Guidance is a means of helping youngsters solve emotional, social, physical, and scholastic problems. At the present time, the guidance program includes conferences with parents and with pupils, making recommendations for pupil placement, administering individual tests, and organizing the overall elementary testing program.

The most important educational goal for each pupil should be to progress at his own rate according to his own potential. We know that the stage of development reached by each child in his search for maturity and education varies with each indi-

vidual. A program must be planned which meets his needs and allows him to achieve according to his own growth. We must also constantly strive to overcome one of the most serious problems in education today — that of the pupil who works below his ability.

We attempt to meet individual needs by grouping pupils according to achievement. By grouping, we try to place pupils at the level of learning where he can be challenged to work to his optimum and to avoid the frustrations that often inhibit learning. We are, however, in need of more teachers and classrooms in order to reach our desired educational goals.

We on occasions hear parents express feelings of disappointment because their youngster is in one of the basic groups. I wish to re-emphasize that many pupils are slow starters but they have good potentials and eventually they will find their field of interest and become as successful as pupils who at this stage of learning are working in the faster moving groups.

The curriculum is constantly undergoing close scrutiny and revisions are made when necessary for developing better educational advantages. There has been no major curriculum change this year but the science program has been improved so that we have a spiral development of concepts from grade one through grade six.

The total Language Arts program is being studied by the curriculum council. The Linguistic approach for teaching English is to be carefully studied by the staff to determine what program we should adopt in order to improve and coordinate the program from grade one through grade twelve.

The cost of education is great and our demands increase each year but education is no longer a luxury; it is an economic necessity and the highly educated person has become the single most important capital resource in our great society.

In closing, I wish to take this opportunity to thank the Milford School Board, Mr. John Murphy, Mr. Edward Lawton, the school teaching staff, custodians, school lunch workers, and all citizens who have in any way contributed to promote better education for our Milford youth.

Report of School Lunch Supervisor

In submitting my report for 1966, I notice that we seem to continue to be on the increase side. The total number of meals served to students in all schools was 137,059 an increase of 10,298. Half pints of milk purchased, 307,610 an increase of 10,000. Meals served to adults 10,457 an increase of 2,338 and 1,529 free meals were served by the program.

We now have two serving periods at the Garden Street School, two at the Jacques. At the Garden Street School we now have dishwashing facilities which are a great improvement. We also have a nice kitchen area to serve from, giving more room in the dining room. Mrs. Gauthier and Mrs. Shepard supervise the serving of lunch at the Garden Street School.

This year Mrs. Alice Smith is managing the Jacques kitchen and supervises the cooking for Garden Street and the Jacques schools. She is assisted by Mrs. Vivian Horne and Mrs. Gauthier, also Mrs. Amelia Brown, and Mrs. Josephine Wright come in part time and are doing an excellent job.

Since the Area School did not open until December, we were in the process of getting organized during the month of November. Meals were served in the new kitchen to the special class and their teachers in charge. We have now become pretty well settled and have very fine facilities with our new walk-in refrigerator and freezer and ample storage space. We are making good use of our new steam kettles and ovens; Also, our fine Baker's Ovens. It is really a pleasure to see the results.

Mrs. Frieda Theroux is my assistant and the Co-Workers are: Mrs. Thelma Raymond, Mrs. Esther Buxton, Mrs. Pauline Caswell and Mrs. Nancy Rogers. We have three servings at the Area School, our nice serving area with hot tables to serve from are very convenient, the Cafetorium is a lovely place for the students to eat. We have two ladies to run the cash registers: Mrs. Betty Heater and Mrs. Cynthia Byrd. We are very fortunate to have Mr. Earl Randall in charge of our Dishwashing room and machine. Mr. Arthur Henderson has been a great

help to us as custodian and I feel we have a pretty smooth organization.

At this time, I would like to thank Superintendent John Murphy, Principals—Mrs. Doris Rebidue, Mr. George Corson, and Mr. Donald Demarais, assistant principal. Their help and cooperation are greatly appreciated.

Mrs. Jane Tostevin Supervisor

Measles	21
Mumps	16
Pediculosis	18
Impetigo	3
Scarlet Fever	12

Pre-School — May 1966: 106

Number of home visits by School Nurse: 495

Synopsis of School Meeting

March 5, 1966

The annual Milford School District meeting was held at the Senior High School Auditorium on March 5, 1966 at 7:00 P. M.

Moderator George B. Higgins opened the meeting with the reading of the warrant. Reverend Charles Gaines offered the invocation. A moment of silent prayer was asked for the memory of two of our teachers, Miss Catherine Gogan and Miss Mabel Connolly, who passed away this past year. Miss Gogan, who for 38 years of teaching, taught in Milford for 36 years and Miss Connolly was teacher consultant for the past 12 years. Boy Scouts Ray Brown, Peter Brown and David Boynton led in the salute to the flag. The moderator used the gavel presented to him by the President of the Institute of Banking.

General instructions were made: to speak, a motion must be made from a seat; if unheard by all, speaker must come to the microphone by the stage.

Voting will take place on Tuesday along with the Town Meeting voting.

Mr. John Murphy, the new Superintendent, attending his first meeting here, was introduced, and was given the privilege of "voicing" at this meeting.

Town reports being limited, everyone was asked to bring his report to the Town Meeting also.

Mr. Robert Davis, School Committeeman, gave the report on the AREA school which was accepted,

Article 1: To determine and appoint the salaries of School Board and Truant Officer and to fix the compensation for any other officers or agents of the district.

Richard D'Amato moved that an increase in salary be given to each School Board member in the amount of \$600.00, making a total of \$1250.00 increase. The Budget committee had no comment to make on the motion and Chairman Ferguson rejected the motion stating that the Board felt that this money could be used elsewhere in the Budget. The Board meets at least once a week during the year putting in many hours. The amendment was not passed and it was moved "to pass over this article and consider it with Article No. 5."

Article 2: To hear the reports of agents, auditors, committees, or officers chosen and pass any vote relating thereto.

Passed.

Article 3: To choose agents, auditors, and committees in re-

lation to any subject embraced in this warrant.

Passed.

Article 4: To see if the district will vote to authorize the School Board to make application for and accept on behalf of the district any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or the State of New Hampshire or from any other source.

Passed.

Article 5: To see what sum of money the district will vote to raise and appropriate for the support of the schools, for the payment of the statutory obligations of the dsitric.

Motion – Moved the district raise and appropriate the sum of \$967,600.52 for the support of schools, for the payment of salaries for school district officials and agents, and for the payment of the statutory obligations of the district as follows:

100 Series Administration

1400 Series total	-----	20,138.19
1500 Series Special Class		19,302.00

GRAND TOTAL		\$967,600.52

Article 6: To see if the district will vote to authorize the School Board to rent the present Milford Junior High School to the Tyngsboro, Massachusetts School District and to expend the rental as follows:

- a. For the improvement and maintenance of the existing facilities.
- b. For additional equipment needed in the Senior High School.
- c. To invest all excess revenue from this rental in a capital reserve fund for the future improvement and repairs to the existing junior high school plant.

Motion was made by Mr. Ferguson, Chairman, "I move the district authorize the School Board to rent the present junior high school facilities to the district of Tyngsboro, Massachusetts and to expend the rental for the improvement and maintenance of the existing facilities for the purchase of equipment and to invest all excess revenue in a Capital Reserve Fund for future improvement and repairs to the existing building." Motion passed.

Article 7: To see if the district will vote to raise and appropriate the sum of \$8,500 for the purpose of converting the present junior high school heating system to oil and to make necessary repairs to the boiler.

Chairman moved and was seconded, "Since this item was acted upon under Article 6, I move we pass over this article."

Motion passed.

Article 8: To see if the district will vote to authorize the School Board to expend for the Area School building project up to, and including \$30,000 of unanticipated receipts from sources such as legacies, gifts, and interest.

Motion passed.

Article 9: To see if the district will vote to raise and appropriate the sum of \$15,000 for the purpose of site development at the Milford Area School.

Motion, "That the sum of \$34,000 be appropriated for site development at the AREA Junior-Senior High School; that in order to raise this amount, the School Board is authorized to issue that amount of bonds or notes of the District under the Municipal Finance Act which represents the District's proportionate share of the foregoing appropriation as determined by the State Board of Education; that the School Board is authorized to execute in the name of the District all necessary instruments to procure such loan; that the School Board is authorized to take all necessary action in order to carry out the project; and that this vote permits the issue of \$34,000 bonds or notes pursuant to the Municipal Finance Act and the provisions of RSA 195-A and RSA 195-B as amended," as read by the Chairman was passed. Trees and shrubbery are not included in the above motion.

Much discussion was held on this subject, as to how many fields are expected and this would include two fields, soft and soccer ball. There is no soccer field now to the School Board's knowledge. The hot top will be applied with foundation work specifications. It is estimated that \$8,000 will be spent on grading, \$16,000 on fill and \$10,000 on paving. Amherst will be paying approximately \$8,000. These figures have been given by architects and not bidders. If bids are higher than proposed motion, something will have to be left out. It is believed that State Aid will help, if work is done in a short time.

Article 10: To see if the district will vote to raise and appropriate the sum of \$3,050 to establish a Driver Education course at the Milford Area School.

Discussion was taken on this subject, with the Chairman reading the State requirements concerning Driver Training in obtaining licenses, etc. After a standing vote, the motion lost 157 to 137.

Article 11: To see if the district will vote to raise and appropriate the sum of \$8,275 for the purpose of site development at the Garden Street School.

Fidele Bernasconi motioned to have the Article amended to read \$3,800 for asphalt work at the front of the building only, but the amendment was lost and the original motion of \$8,275 passed.

Article 12: To see if the district will vote to raise and appropriate the sum of \$2,000 for the purpose of site development at the Jacques School.

Motion was lost.

Article 13: To see if the district will vote to raise and appropriate the sum of \$7,500 for said purpose of instituting inter-scholastic football at the Milford Area School. (By petition).

Luke Bowen gave a report on inter-scholastic football. Nick

Calvetti and many others were very much in favor and commented on the advantages of such a sport area. Motion was lost.

Article 14: To see if the district will vote to accept the provisions of Public Law 89-10 designed to improve educational opportunities with particular reference to children of low income families and to appropriate such funds as may be made available to the district under said federal act for such particular projects as may be determined by the School Board. Further, to see if the district will authorize the School Board to make application for such funds and to expend the same for such projects as it may designate for the 1965-66 school year.

Motion — Moved the district accept the provisions of Title I PL 89-10 and authorize the School Board to make application for and expend the sum of \$16,012 in the 1965-66 school year for such projects as it may designate and further move to authorize the School Board to apply for and expend an additional \$16,500 of PL 89-10 funds in the 1966-67 school year. Motion passed.

Motion was passed to have the entire School District's personnel salaries printed in the Town Report. Chairman Ferguson stated that the "Board feels that they should be printed in the next School Report."

Before adjournment of the meeting, Chairman Ferguson read the following: "I move that: Whereas this is the last year of teaching for a devoted teacher with 46 years of educating our younger children most capably, and whereas, Mr. Maurice Jewett has not declared for re-election for the position of School Treasurer, which position he has filled most capably for time immemorial; therefore, be it moved, by unanimous standing vote of applause, that we adjourn this meeting to meet at the same place on March 11, 1967 at 7 P. M. and we adjourn in thanks and gratitude for long and devoted services of Miss Muriel Young and Mr. Maurice Jewett."

Meeting recessed at 12:00 P. M.

RECESSED SCHOOL MEETING — MARCH 8, 1966

At the recessed meeting of the Milford School District, the motion "That teachers and school employees' salaries be published in the Town Report" was again taken up, due to an irregularity in voting at last week's meeting. After some discussion on the subject, the final decision was reached near midnight with the vote in the affirmative, so that Teachers and Employees' salaries will be published in the next Town Report.

This motion was presented by Mr. A. Hunter at the regular School meeting.

Respectfully submitted, NELLIE D. PIPER, Clerk
